Dr. Litawski

Reference your request for information regarding CROWCASS letter 7752 /AR:

VENEDIGER, Gunther

The "Annotation " to List No 9, was added by me from information I had obtained from Detention Circular 5, January. 1946.

The wording in Detention Circular 5 is:
In British custody as of 20.11.44.
Present Address: ME. 19.12.44.

C.M.J.

Dr. Litawski

SUBJECT: VENEDIGER, Gunther.

Reference your request for elucidation regarding the source of information for Detention Circular 5.

The source was a CROWCASS Letter, December 11, 1945 (Ref. Wanted Lists) enclosing two Lists:

- (i) List of persons..., who are considered to be similar to persons included in UNWOC Lists.
- (ii) List of persons of similar characteristics who appear in CROWCASS Records, and for whom Wanted Reports have been filed either by or on account of the Powers under which they are grouped.

The name of VENEDIGER, Georg (LIST No. 9, Ser. No. 196) appears on page 4 of List (i)

N.B. List 9 VENEDIGER has no Christian name
CROWCASS List (i), December 11, 1945 (and consequently Detention Circular 5) VENEDIGER is called GEORG.
CROWCASS Letter 7752 /AR, 3 Oct., 1947 VENEDIGER is called GUNTHER

" " Not only is there discrepancy of Christian name, there is also that of Rank:
List 9 VENEDIGER's Rank is: Head of Gestapo, Danzig.
CROWCASS List (i), Dec. 11, 1945 VENEDIGER's Rank is:
O. Feld W. ISN 336400

It would therefore appear that the two persons in question are not identical.

C.M.J.

16th October, 1947.

Your Ref. No. CR. 7752/AR.

Subject: VENEDIGER, Gunther

To: Major S.H. Gowing, CROWCASS,
Allied Control Authority, APO 742, US Army.

1. In reply to your communication dated 3 October, 1947, regarding a certain Gunther VENEDIGER, your attention is drawn to the following.

2. With regard to the individual listed as VENEDIGER in UNWOC List 9, Ser. No. 196, no Christian name is indicated, and his function is described as Head of the Gestapo, Danzig.

3. The additional data shown in UNWOC "Annotations to List 9" originated from a communication received from CROWCASS, dated Dec. 11, 1945, (Ref. Wanted Lists). Under cover of this communication, two lists were received, the first containing names of persons "who are considered to be similar to persons included in UNWOC Lists". On page 4 of this first list is included the name of a certain Georg VENEDIGER, where it is stated: O.Feld W., present address ME. 19.12.44 (In British custody as of 20 November 1944), and concerning whom CROWCASS makes reference to UNWOC List 9, Ser. No. 196.

4. In the absence of further information and in view of the discrepancies regarding Christian name and function, the Commission is not in a position to say whether VENEDIGER listed under Serial No. 196 in List 9 is, in fact, identical with either Georg VENEDIGER to whom you referred in your communication of December 11, 1945, or Gunther VENEDIGER referred to in your present enquiry.

5. The Commission has received no further information regarding VENEDIGER from any other source.

Dr. Litawski

There may be a Discrepancy (though not of great importance) List 9; ser. nO. 162.

SUBJECT:- Dr. Paul SCHMIDT

In News Digest No. XXV., the a/m Dr. Paul SCHMIDT is stated to have been at liberty since January 4th, 1947, and to have been rearrested "three days previous to 7.2.47", ("as reported by News from Germany"), whereas in the annotated List 9, recently sent in by The United States Office, the a/m is said to have been released from Dachau 11.2.47.

Of course it is not excluded that Dr. Paul SCHMIDT was rearrested 4.2.47 and, after only one week of detention, was released for the second time 11.2.47.

Be it as it may, the annotation in the rough copy compiled for you by me, cannot stand as it is.

C.M.J.

MARCH, 1947.

UNITED NATIONS WAR CRIMES COMMISSION.

ANNOTATIONS TO LIST NO. 9.

(German War Criminals Holding Key Positions).

Based on official and semi-official information
available to the Commission as on February 1st,
1947.

Dr. Litawski

Key to annotated List 9 (b)

Names of countries typed in BLACK, or in handwriting, in column 2, are those of countries that have submitted charges against the person listed.

Names of countries typed in RED, in column 2, are those of countries that have sent wanted reports to CROWCASS.

Information typed in Black, in column 3, has been added by Miss Jack from diverse sources. The source is indicated.

Information typed in RED, in column 3, is information supplied by CROWCASS, through the mediumship of the United States Office. Much of this information is on the accompanying CROWCASS sheets.

It must be remembered that some of the information in BLACK, in column 3, was already on annotated List (9)a and no further clue to the source of this information is being given here. It will be determined what is previous information, and what is new, by comparing annotated List (9)a with annotated List (9)b, the present one. Moreover, previous information is in printed characters, whereas new information is in typed ones.

N.B. Where any doubt should arise, it would be well to consult the Index Cards for List 9, all together in a separate box.

The accompanying CROWCASS sheets will also help to clear matters.

Information written in PENCIL, is information supplied by The U.S. Office.

COMPILED FOR DR. LITAWSKI

C.M.J.

MARCH, 1947.

UNITED NATIONS WAR CRIMES COMMISSION.

ANNOTATIONS TO LIST NO. 7.

(German War Criminals Holding Key Positions)

Based on official and semi-official information
available to the Commission as on February 1st,
1947.

Dr. Litawski

Key to annotated List 7 (b)

or in handwriting

Names of countries typed in BLACK, in column 2, are those of countries who have submitted charges against the person listed.

Names of countries typed in RED, in column 2, are those of countries who have sent wanted reports to CROWCASS.

Information typed in BLACK, or in handwriting, in column 3, has been added by Miss Jack from divers sources. Where the source is not stated on the list itself, it is to be found on the accompanying sheet.

Information typed in RED, in column 3, is information supplied by CROWCASS through the mediumship of the United States Office. Much of this information is on the accompanying CROWCASS sheets.

It must be remembered that some of the information in BLACK in column 3 was already on the annotated List 7 (a) and no further clue to the source is being given. It will easily be determined what is previous information and what is new by comparing Annotated List 7 (a) with Annotated List 7 (b), the present one. Moreover, the former is in printed characters; the latter in type.

Information written in PENCIL, is information supplied by the United States Off.

PEACE

C.M.J.

N.B., Where any doubt should arise, it would be well to consult the Index Cards of List 7, all together in a separate box.

The CROWCASS sheets will also clear matters.

Information written in red ink is information supplied by Colonel Springer 11.12.47.

SOURCES OF INFORMATION FOR LIST 7 (b)

UNITED NATIONS WAR CRIMES COMMISSION.

Secretariat of Committee I.

LOCATION OF PRISONER OF WAR AND CIVILIAN INTERNEE
ENCLOSURES IN GERMANY, AUSTRIA AND ITALY.

United Kingdom and United States Zones of Occupation.

. . The attached information which has been received from CROWCASS is in some respects out of date, owing to the closing down of camps and may be of limited use only to members of U.N.W.C.C., owing to the frequent transfers of Detainees between camps.

It is, however, appreciated that when National Authorities endeavour to trace a person published in a CROWCASS Detained List, they will be helped if they know in which Allied Zone the Detained was held at the time of rendition to CROWCASS of the Detention Report. This is perhaps particularly so when a National Authority is without Liaison Offices at H. Q. Allied Zones of Occupation. Possible alteration in the information supplied in Detained Lists, in order to show the Zone in which a Detainee is held, is under consideration. Meanwhile, the attached is circulated.

SUBJECT: Wanted Reports filed with CROWCASE

Your Ref. No: CR 7178

1. Reference your communication dated 30 July, 1947, regarding 328 persons currently listed by CROWCASE as wanted by the United Nations War Crimes Commission at June 1947.

2. It is pointed out that the only persons ever "wanted" by the United Nations War Crimes Commission as such were those listed in the Commission's Lists Nos. 7 and 9, together with the following:

List	Serial Nos.
5 (Part II)	1 - 4
8 (Part I)	266 - 268
10 (Part I) (Part III)	701 - 716 49 - 50
13 (Part I)	963 - 1007

Concerning those persons indicated in para. 2 above, who are listed in the relevant parts of Lists 5, 8, 10 and 13, it will be found that a few already appear on Lists 7 and 9.

3. The basis and procedure adopted for listing of the above persons was explained in the Introduction to Lists 7 and 9.

/ 4.

4. As stated in the letter dated 31 March, 1947, from the Secretary-General to Major Lewis, the Secretariat recently undertook to obtain as much available information as possible regarding those persons listed in Lists 7 and 9. The information received to date, including that transmitted by CHOWCASS, is now being checked and a new edition of annotations to Lists 7 and 9 is in preparation. These will be forwarded to you when ready.

5. All persons originally listed as wanted by the Commission in Lists 7 and 9 who have been charged for war crimes by individual countries, should be considered as being "wanted" by those countries and no longer by the United Nations War Crimes Commission, since the Commission has in fact no further responsibility with regard to such persons once they have been charged by particular Governments.

6(a) Attention is drawn to the names of certain individuals indicated in CHOWCASS Consolidated Wanted List as wanted by the United Nations War Crimes Commission, but of which the Commission has no record of ever having been listed. Examples are:

Name	C.R. File No.
AVESQUE	14931
BONSHEN	14573
DANDWEN Pieter	170712
FELDER	14336
FINGERHUT	72000
MATHIS Hubert	130721
PFANNKIL	167766
SCHERGER Julian	35531
STOPIKI	20094
TUNESIN	104910

It would be appreciated if the Commission could be informed of the grounds on which all such persons have been indicated as wanted by the United Nations War Crimes Commission.

(b) Some persons are indicated as wanted by the United Nations War Crimes Commission when, in fact, their names do not appear in Lists 7 or 9 (or in the relevant parts of Lists 5, 8,

10 or 13), but in the periodical lists of the Commission charged only by particular countries, e.g.

C.R. File No.

177743	BRADET Ursula (Wanted by <u>France</u> UNWOC List 6)
31604	MICHAILSKI (Wanted by <u>Norway</u> UNWOC List 8)
62331	SCHMIDT Victor (Wanted by <u>Czechoslovakia</u> UNWOC List 32)

Such persons should be indicated as wanted by the countries concerned and not by the United Nations War Crimes Commission.

(c) In regard to persons indicated as wanted by the United Nations War Crimes Commission and included in Lists 7 and 9 (or in the relevant parts of Lists 5, 8, 10 and 13), no indication is given in some instances of the countries which have subsequently charged them and by whom they are really wanted. Such examples are:

C.R. File No.

62165	BOJMS FRANK (Wanted by Yugoslavia UNWOC List 13)
187582	BOVENSIEN (Wanted by Denmark UNWOC List 31)
21316	MEYER Alfred (Wanted by Poland UNWOC List 10)

The procedure to be adopted with regard to persons of this category is indicated in paragraph 5 above.

7. With regard to Column 3 of the Lists, it is pointed out that this information has been received by the Commission from various sources. Dear Major Lewis,

You will recall that in the Commission Lists Nos. 7 and 9 issued in April and May, 1945, some 562 Germans holding Key Positions were listed on the initiative of this Commission on account of their official position, as there was a strong presumption that they had taken part in the making of criminal policy and the organisation of war crimes. When taking this decision at that time the Commission hoped that the respective Governments would thus be encouraged to bring definite charges against these persons. However, the National Offices have assumed that all or most of these persons would be tried by the occupying authorities before some international or military courts, and therefore they have transmitted to the Commission charges which cover only about 200 of the individuals included in these Lists.

Thus, the position has been created whereby a number of persons have been arrested and kept in custody on the strength of the Commission's Lists, but no Government has claimed the right to try them. Moreover, in some isolated instances the persons taken into custody have even been set free with the approval of the Commission, because no concrete charges had been laid against them.

In these circumstances it was necessary for the Commission to take some action, and it was decided to find out first what was the actual position in regard to each of the individuals listed. With this purpose in view it was thought advisable that the Secretariat should annotate Lists 7 and 9 and indicate therein any further particulars which had since been made available to the Commission.

Major C.V.J. Lewis, DAAG,
CROWCASS,
APO, 742,
U.S. ARMY

In accordance with the Commission's recommendation, I enclose herewith three copies of the annotations to Lists 7 and 9, and venture to ask your Office to rectify and supplement them with further information in your possession in order to bring them up to date insofar as persons taken into custody, tried, released, or handed over for trial are concerned.

I would be most grateful if this matter could be given some priority, and if the Commission could be provided with the Lists thus supplemented at your earliest convenience.

Yours sincerely,

Secretary-General

Dear *Wade*:

Thank you for your letter of 31 March, 1947, enclosing the Commission Lists Nos. 7 and 9 as annotated.

I have forwarded a copy of these to War Crimes Group, North West Europe, and am getting another copy checked with information held in this office. I hope to forward very shortly the further material which is discovered as a result of these checks, but I think that it is unlikely that we shall know very much about many of the people contained in the Lists, since we are concerned only with persons against whom we can prove specific war crimes.

Yours *Sincerely,*

1. The names listed in annotations to United Nations War Crimes Commission Lists Nos. 7 and 9 have been checked carefully against the records of individuals held in confinement in Austria, and it was determined that none of the individuals held in confinement here could be identified with the names of those appearing on the lists.

On list No. 9 - Nos. 11, 41, 48, 64, 206.

In the event that it is desired that these individuals be checked further to determine whether or not they are identical with individuals listed as stated it is requested that full information concerning each of them to include full names, birth dates and such other pertinent information as may be available be forwarded to this Headquarters.

SUBJECT: Information Regarding Individuals Covered by Annotations to Lists Nos. 7 and 9.

Navy Number 100, New York, New York

1. Reference is made to your letter, 9 April 1947, and inclosures thereto, consisting of annotations to United Nations War Crimes Commission Lists Nos. 7 and 9, and copy of a letter from the Secretariat of the United Nations War Crimes Commission requesting that information be furnished by United States authorities as to whether the Germans named in the Lists would eventually be tried or handed over to another nation for trial.

2. The above-mentioned lists are returned herewith and in each instance this Group was able to obtain positive information a notation was entered opposite the name of the individual involved.

3. The information was gathered from the files of this Group, from the records of the Historical Division, Headquarters, European Command, and from the Prisoner of War Information Bureau.

4. In addition to above, the Central Registry of the Counter Intelligence Bureau was requested to add any information available in its files. This agency advised that due to the meager amount of information contained in the Lists, very little data of positive value could be supplied. The Lists were also sent to the Office of Chief of Counsel for War Crimes, Nurnberg, and to the Central Registry of War Criminals and Security Suspects, which latter two offices, however, advised that they previously made appropriate annotations on lists furnished them by the Commission and that these had been returned.

PARTICULARS OF CRIME OR REASON FOR WHICH WANTED

Include names and addresses of witnesses and other sources of information. Where crime is committed against members of Armed Forces, give victim's unit, full name, and service number. Attach separate sheets if necessary. If wanted for crimes committed in more than one locality, give particulars of each crime separately. Include details of rank, unit, etc. of wanted person, if it differs from that shown in columns 15 to 19.

Wanted as witness in Milch case for crimes against peace, war crimes and crimes against humanity, in violation of Control Council Law No. 10, Art. II.

Civil Occupation: (cont'd) Dr. Hupfauer was also Chief of the Central Bureau in the Armament Industry from the end of 1944.

Before the war, Dr. Hupfauer was Head of the "Social Self-Responsibility" Department in the Central office of the German Labour Front (Deutsche Arbeitsfront--DAF). His official title was "Oberdienstleiter" and he was a Political Leader in the Supreme Office of the DAF.

The German Labour Front was an organization with organizational, financial, and

PARTICULARS OF CRIME (CONTINUED)

personal independence. It was annexed to the NSDAP. The tasks of the Political Leadership were up to the Party itself. The DAF was an organization including about 20,000,000 people. Reichsorganisationsleiter of the NSDAP and also Leiter (leader) of the DAF was Reichsleiter Robert Ley (Defendant in Case I).

In 1942, Dr. Hupfauer was responsible for collaboration of the German Labour Front between the Reichsministry of Economics and the Reichsministry of Armaments and War Production. He was liaison man of the German Labour Front to the Armament Ministry.

In July 1943, Dr. Hupfauer became Member of the Select Committee for the Ruhr ("Ruhestab Speer") and Chief of the Group "Arbeitsordnung" (Order of Labour) in the Speer Ministry.

In October 1944, Dr. Hupfauer became Head of the Control Department in the Speer Ministry (Central Bureau, Reichsministry of Armaments and War Production).

Oberdienstleiter Dr. Hupfauer was also Stabsobmann (Staff Chairman) of the Hauptamt NSBO (Nationalsozialistische Betriebszellenorganisation), and Head of the Proficiency Drives of the DAF (Deutsche Arbeitsfront). He played apparently an important role in the Ministry of Armament and Production as well in the German Labour Front. He knows the limits of the responsibilities of Ley, Sauckel and Speer, as he has been Chief of the Office of Social Selbstverwaltung (Social Responsibility) in the DAF for many years. He had as Chief of the Centralamt since December 1944 insight into all important events of the Ministry.

Dr. Hupfauer was requested by the Defendant in case one Albert Speer because the definition of authority is of great importance in the investigation of the question, as to how far the defendant can be charged at all with the accusations made against him. He was to give information on the connection between the Labour Front and the Speer Ministry--responsibility of the Labour Front for the social conditions of workers.

He was responsible and trusted high official (Staatssekretar) in the NSDAP Chancery under Martin Bormann. In addition to knowledge of and complicity in the entire Nazi program he, as Chancery expert on Public Law questions, is responsible for, and indeed drafted, much of the legislation in persecution of the Church, Jews, and Poles. It is suspected that Klopfer is guilty of the same crimes for which Martin Bormann was convicted by the IMT. We wish, for all these reasons, to bring Klopfer to trial.

Naumann held the rank of State Secretary from 1933 to 1945 in the Propaganda Dept. However, his most important assignment was as a State Secretary in the Four Year Plan. As such he was associated with Paul Koerner and Backe in working out the agricultural problems confronting the Four-Year-Plan. Naumann was very active in the East. He has all the information on the spoliation program and the slave labor program as carried out or conducted in Poland. He will make a most valuable witness and his presence in Nurnberg is definitely required.

For the time being Naumann is listed as a witness but in all probability will become a defendant in the case against the Reich Ministry of Food and Agriculture.

"The whole function of all education is to create a Nazi." This statement by Dr. Bernhard D. Rust, as Reich Minister of Science, Education, and Culture for the People, recorded in Völkischer Beobachter on February 13, 1938, depicts the culmination of German education under the guidance and leadership of Dr. Rust. Dedicated to the creation of a Nazi, the German educational system began to eliminate all elements of resistance by official decrees, authored by Dr. Rust. His personal "purge" of the teaching profession in Germany represents one of the earlier courses adopted to attain this end. The attack on Christian teaching and on churches, the persecution of the Jews, and the regimentation of youth must be attributed to Dr. Rust -- he was the instrument selected by the NSDAP to enforce its policy in the field of education and science.

PARTICULARS OF CRIME (CONTINUED)

Rust advocated the restoration of the Wehrmacht and the war employment of the German youth. Over his signature appeared decrees excluding Jews and half-Jews from schools, denying Polish children the right to enter German public schools, and forcing them into village schools. Orphans under six years of age were to be raised in State orphan asylums outside the homeland and trained to stay in the Reich.

Rust was influential in devoting funds from occupation costs to the purchase of art treasures and rare books in the occupied areas. The greater majority of these purchases were made in the German-created black markets, and the results of such purchases were returned to the Reich to be added to the collections confiscated from the Jews within the Reich.

As Minister of Science, Rust became the instrumentality through which requests were made by Germany scientific institutes for the confiscation of scientific instruments in occupied areas. Medical research laboratories became centers of experiments upon concentration camp victims and groups elected for extermination. Quotations from German medical journals which can be obtained in any German Universal Library referring to the score of experiments on people described as normally healthy who met sudden death. During Rust's tenure of office the supply of persons for experiments in German medical laboratories was definitely increased.

Concerning Rust's political background: He was a member of the NSDAP since 1922, Gauleiter for Hannover and Braunschweig from 1925 to 1930; Burgervorsteher in Hannover during 1924; member of Reichstag since 1930 as delegate of Hannover; Prussian Kultus Minister in 1933; Reich Minister for Wissenschaft, Erziehung und Volksbildung in 1934.

PARTICULARS OF CRIME OR REASON FOR WHICH WANTED

Include names and addresses of witnesses and other sources of information. Where crime is committed against members of Armed Forces, give victim's unit, full name, and service number. Attach separate sheets if necessary. If wanted for crimes committed in more than one locality, give particulars of each crime separately. Include details of rank, unit, etc. of wanted person, if it differs from that shown in columns 13 to 19.

1. Position held implicates him in the wide atrocity programs of the German Government.
2. Dr. Paul Karl Schmidt was Chief of the Press Department of the German Foreign Office.
3. Said Dr. Paul Karl Schmidt was a student and teacher at the University of Kiel when he was assigned to the German Foreign Office in 1938 to organize the foreign press section therein. Up to 1938, the German foreign office was unable to obtain information concerning news, events, and public opinion of the outside world because the German press and foreign news service was stifled by the Propaganda Ministry. In November, 1938, the said Schmidt organized the foreign press section under Gesandter Aschmann and set it into operation immediately thereafter. Rippentrop wanted news from foreign countries so that he could guide his foreign policy on the basis of world opinion and the foreigner's desire to resist Nazi aggression. Friction grew up between the Foreign and Propaganda Ministries at

the very outset. In 1939 Goebbels told the foreign office that it had nothing to do with questions of press and news. Rippentrop in turn told the Propaganda Ministry that it failed to give the foreign office correct and complete reports on foreign news and for that reason it was necessary for him to organize a foreign press section. This fight continued to the very end of the war.

Said Schmidt, as chief of the foreign press section of the German Foreign Ministry, had to obtain detailed foreign news, to try to influence the German press on questions of foreign policy (this was impossible) and to interpret the importance of German foreign policy to the foreign press (held periodic meetings with the foreign correspondents in Berlin). With respect to the conferences held by the foreign office for the foreign correspondents, Goebbels had these discussions limited to questions pertaining to German foreign policy only; it was forbidden for the foreign press bureau to raise or answer questions dealing with domestic or internal matters, or with the administration of German occupied territories. Said Schmidt held this position until the end of the war and was constantly harrassed by Goebbels and Himmler.

Said Schmidt became a member of the Nazi Party in 1931 and dropped out of the party within a period of one month because of the Jewish questions.

At the beginning of 1933, he joined the party again and worked in the Nazi Student Party at the University of Kiel until 1935. He claims that he was always in disagreement with the radical Nazis and as a result thereof, he dropped out of the party activities altogether in 1935. He was condemned by the radical element as an intellectualist or one who thinks and doesn't follow Hitler's orders or decrees blindly.

Said Schmidt is extremely cooperative and will volunteer a wealth of information concerning the nefarious dealings of the Nazi Party in domestic and international matters. He condemns Nazism and is most desirous of seeing it completely expunged throughout Germany. He states that the Foreign Office was guilty of appointing Gestapo men to high diplomatic position abroad. Many Gestapo men were sent as diplomatic and economic attaches to foreign countries where they (12)

hunted down German Anti-Nazi emigres and engaged in political intrigue. Schmidt claims that he prevented his section from becoming contaminated with the Gestapo element. Schmidt claims that Rippentrop acceded at all times to Himmler's wishes and that Himmler desired him in office because he had a sufficient amount of incriminating evidence against him to hold him completely under his sway by political blackmail. Schmidt can volunteer information concerning most of the branches of the German Government. He claims that the People's Court was a notorious hangman's tribunal: that Friesler, the President thereof, in an address to the Propaganda Ministry stated in unequivocal and forceful terms that all men and women who come before the People's Court must be executed because anyone who doesn't believe in Hitlerism (Hitler represents all the German people in mind, spirit and body) doesn't deserve to live. In the trial of Albert Schuler in the People's Court, said Schuler was condemned to death because in 1932, he said, "Germany lost the war." Before the trial, one of Hitler's chief hench men, Gruppenfuhrer Mueller, Chief of the Gestapo, told the court to mete out the death sentence to Schuler and the court condemned this man, not on the evidence, but in compliance with this order. Said Schmidt was taken into custody by the 307th CIC Detachment in Salzburg, Austria on 6 May, 1945 and they in turn brought him to the SAIC on 10 May, 1945, where he is presently detained.

PARTICULARS OF CRIME (CONTINUED)

Steengracht was a member of the NSDAP from 1933 until 1945. He became associated with the Foreign Office in 1936 and continued that association until 1945. During the period 1933 until 1945 he was State Secretary of the Foreign Office under Ribbentrop. Steengracht is best described as a person who did everything to satisfy Ribbentrop's requests and honors. As a member of Ribbentrop's close entourage, he assisted in carrying out criminal policies particularly those involved in the extermination of Jews. Steengracht, as State Secretary, knew of and did take an active part in the deportation of Jews. He had knowledge of and participated in the commission of War Crimes in Norway. Steengracht was informed of the plan to murder one of the French Generals held as a prisoner of war and worked out some of the details so as to prevent its detection.

1. Position held implicates him in the wide atrocity programs of the German Government; wanted also as automatic arrestee; (Obergruppenfuhrer).
2. Max Amann was President of the Reich's Press Chamber, an association of all newspapers registered in the Gaus.
3. Said Amann was a Sergeant (Feldwebel) in World War I, and was Hitler's sergeant, the wartime acquaintance apparently bringing all of Amann's power and wealth. He seems to have had no career but the Nazi Party having become publicity director for it in 1922. He participated in the 1923 Munich Putsch; and in 1925 he learned he had been given party

number 3, after Hitler and Esser, Amann describes himself as a publisher, but all his duties as President of the Reichspressekammer that seem to have entailed was to act as nominal head of the association. He was its financial and commercial director - he had no journalistic experience whatsoever, and was not entitled to membership in the professional journalists organization. As president of the Reichspressekammer, he was commercial manager of all papers registered under the 52 Gaus, with the notable exception of Streicher's "Der Stuermer". Said Amann states that this paper was "Schweinerei", and that he would not permit it in his own home because of his children. He claims that he refused to let "Der Stuermer" be registered with his chamber, and then asked Hitler to halt its publication because of its non-compliance with the registry law. Hitler refused to do so, because of his obligations to Streicher. Said Amann states he was able to have the public displays of the paper stopped. Amann had no connection with editorial policy. This was of course dictated by the Press Ministry but Amann was not even permitted to attend Goebbels' morning press conferences, and his editors were completely independent of him. Amann's intelligence and manner are such as to make it clear he had not the ability to handle this end of the work; he is very simple, and his position and wealth are undoubtedly the result solely of his continued friendship with Hitler. Said Amann held also the SS honorary title of Obergruppenfuehrer, which entailed no duties; and he held the additional party title of Reichsleiter des Verwaltungsamtes fuer die Presse der Partei. He seems ignorant of many of the most significant developments of Nazism itself, has little knowledge of international events, or even of the publishing business. He claims to have had no friends, except the Munich Buergermeister; and to have been contented to live only with his wife and seven children. He denies all knowledge of any kind of atrocities.

1. Position held implicates him in the wide, organized atrocity programs of the German High Command and is also wanted as an automatic arrestee. (Maj. Gen. SS)
2. Herbert Becker was a Genlt. (Maj. Gen.) of Regular Police and Gruf (Maj. Gen.) in Allgemeine SS.
3. Becker joined the party in 1935 in Bonn. Prior to joining the Party, he was Police Major in Bonn. In 1936 he became Commander of Traffic Police District in Essen. At the end of 1936 he was Commander of Traffic Police in Becklinghausen, Germany. From 1936 to 1937, served as Brig. Gen. of DRPC in Vienna. From 1937 to 1938 with the rank of Colonel, he

was Inspector of Police in Muenster. From 1939 to 1940, he was C.O. of the Police in Cracow, Poland, working for the German 10th Army. Source denies any atrocities committed in that sector under his command. This is unbelievable, since atrocities were reported from that sector. From 1940 to 1942, he was Commander of the ORPO at Hamburg. From 1942 to May 1945, he was Inspector of Police for the western provinces with office in Berlin. From 1906 to 1919, Becker was a member of the German Army.

4. Becker was arrested by 970/14 CIC Det 24 May, 1945 at Tegernsee and arrived at SAIC 25 May on authority of G-2 Seventh Army where he is presently detained.

PARTICULARS OF CRIME OR REASON FOR WHICH WANTED

Include names and addresses of witnesses and other sources of information. Where crime is committed against members of Armed Forces, give victim's unit, full name, and service number. Attach separate sheets if necessary. If wanted for crimes committed in more than one locality, give particulars of each crime separately. Include details of rank, unit, etc. of wanted person, if it differs from that shown in columns 15 to 19.

1. Wanted as a witness and or suspect in the transmission and execution of a top secret order (terror order) issued by HIMMLER and passed on to all levels of police authority during the summer or fall of 1944 as a part of a conspiracy to violate the Geneva Convention with respect to treatment of Prisoners of War. Par. 2 below sets forth the details of the conspiracy in so far as they occurred at WIESBADEN, (W3565), KOBLENZ (W19095), and METZ (WU3710), Germany in Wehrkreis 12. Wanted also as an automatic arrestee, SS Gruppenfuhrer.

PARTICULARS OF CRIME (CONTINUED)

- The aforementioned order required the police not to interfere in the event that enemy agents or allied fliers parachuted into civilian hands. That is, German civilians could mistreat or even murder captured allied personnel without the German police interfering. The order was transmitted to Generalmajor der Polizei, und SS Brigadefuehrer HILLE (W/R), Commander for the Ordnungspolizei for Rhine/Westmark at WIESBADEN. It is believed that the order was received directly from HIMMLER by SS Obergruppenfuehrer and General of the Waffen-SS STROOP (W/R), who was Polizeifuehrer of Rhine/Westmark and HILLE'S superior officer. A meeting of police chiefs was held and the order was read to them. STROOP, HILLE, SS Oberfuehrer SCHMANN (W/R), Befehlshaber des Sicherheitsdienstes and SD for Rhine/Westmark, and Major HANS CLAUS (W/R), commander of the Ordnungspolizei for Rg.Bz. KOBLENZ, were there as were 25 lesser police officials. The order was read at this meeting and it was stated that it could only be transmitted verbally because of its Classification. Later HANS CLAUS called together his subordinates near KOBLENZ and transmitted the information to them. One SS Gruppenfuehrer DUNKERN, (W/R) Befehlshaber der Sicherheitspolizei and SD for Lorraine at METZ passed on the order to police chiefs in his area. One, THOMMER (W/R) who succeeded SCHMANN issued a written order on 6 Oct 44 to the effect that all police were to report incidents where allied fliers were protected by the Wehrmacht. This was a terror order by implication only but a part of the conspiracy above referred to.
- Suspect was SD for Lorraine at METZ.

1. Position held implicates him in the wide atrocity programs of the German Government; wanted also as an automatic arrestee (Obergruppenfuhrer).
2. Karl Fiehler was the Oberbuergermeister of Munich and Kreisleiter of NSDAP.
3. Said Fiehler was one of the most influential and powerful members of the Nazi Party in Germany. He became a member of the Nazi Party in November 1923, a few days before Hitler's Beer Hall Putsch in Munich. Fiehler participated in Hitler's abortive revolution in Munich in November 1923 as one of Hitler's Guardsmen. He guarded the Munich Beer Hall at the outset of the rebellion. Thereafter while Hitler and his armed followers marched from the Beer Hall

to Feldherrnhalle. Fiehler was carrying the ammunition for the machine gunner with intent to assist the latter in mowing down any opposition by the German authorities to this attempted coup. Fiehler claims that he didn't partake in any of the bloodshed; however, it is believed that he did. In December 1923, he was taken into custody by the German authorities and in April 1924 he was sentenced by a German court to imprisonment for one year and three months. He was incarcerated in Landsberg prison along with Adolf Hitler. He left Landsberg in 1925 and returned to Munich where he immediately became an official of the Munich Department of Education. From 1924 (while in prison) to 1933 he was an honorable member of the Staatsrat (City Council) of Munich and from 1926 to 1930 he was the Nazi Party Ortsgruppenleiter for Munich-Schwabing. From 1932 until the termination of the war, said Fiehler was a Reichsleiter of the NSDAP (Nazi Party). Thus he was a member of the highest body of the Nazi Party in Germany prior to and throughout the time that the Nazi ruled Germany. From 1930 until Germany's surrender in May 1945, he was also in the Hauptamt for Kommunalpolitik in Germany. This was the head office for local government; the National Socialist agency exercising control over local government and the persons and organizations concerned with it. After the Nazis gained control of the German Government, Fiehler was appointed and thereafter elected Oberbürgermeister of Munich which office he held until May 1945. He is Nazi Party Member No. 37 and received the blood order medal in 1933 for participation in the Munich Putsch of 1923. He holds the honorary rank of SS-Obergruppenführer. He denies having any concrete knowledge that he actively participated in the brutal and sadistic treatment of Anti-Nazis and Jews in Munich. He denies having any knowledge of the inhuman and murderous treatment accorded to the internees of Dachau and its subsidiary concentration camps which ring Munich. He will not volunteer information and pleads complete ignorance of the Nazi brutality. He lies about

1. Wanted for complicity in the murder by shooting of an American flier on 30 Nov 44 at KUECHEN, Hessen, Germany; wanted, also, as automatic arrestee (GAULEITER)

7 A WCB 000.5 (730-7) JA

19 Mar 1946

PARTICULARS OF CRIME (CONTINUED)

- Subject, is alleged to have given order that all landing enemy fliers are to be killed. In this specific instance, ENGELHARDT, Gustav (CI 78 # 0443) (W/R)admitshaving given order to MUELLER, Reinhard (CI 78 # 0412) (W/R) to shoot said American flier on 30 Nov 44 at KUECHEN, Hessen, Germany. ENGELHARDT further states thathe had received orders from Subject "that all landing enemy fliers are to be killed". MUELLER, Reinhard executed the order given by ENGELHARDT.
- Subject joined the Nazi Party at 1930. He became Gauleiter of Kur-Hessen on 44. He was last seen on 5 April 45 at his home in GOTTSBEUREN. On that day, he dressed in his Gauleiter uniform and told his mother that he was going to join the fighting German armed forces. Later, she was informed that he had been killed in action. His death was reported in the BRUNSWICK paper (British Zone of Occupation) and Radio Luxembourg re-ported Subject killed near DUDERSTADT (Russian Zone of Occupation). All further efforts to find Subject by CIC have been in vain; and it is likely that Subject has been dead for almost a year.

Hiege was a personal appointment of Himmler within the Reich Ministry of Food and Agriculture and became Leader of Division VIII and as such, Chief of the Reich Resettlement Office. Hiege was a leading figure in Himmler's Organization for the Strengthening of Germanhood. He was closely associated with Backe, Himmler and other ranking Nazis. He was very active in the Party and persisted in carrying out Party policies within the Ministry. Hiege is a definite authority on the question of Racial Settlement for Germans and a valuable witness in the case against Darre and Backe. He is to be listed as a material witness with a possibility of becoming a defendant.

PARTICULARS OF CRIME (CONTINUED)

Hiege's position brought him in contact with questions pertaining to farm settlement in newly acquired territories and the rehabilitation and training of German farmers in the old Reich.

Hiege held the rank of Obersturmbannfuehrer in the SS, and later was promoted to SS Standartenfuehrer. He was a member of long standing in the Nazi Party.

Hiege was appointed by Darre to work out a German settlement program. He was also named sole manager of the Deutsche Siedlungsbank, but was dismissed from this post in 1939, because Darre accused him of intriguing and meddling. After a short active period on the Western Front, Hiege was named head of Amt Landwirtschaft (Amt IV), 1940. Backe, as successor to Darre, added to his duties by putting him in charge of Abteilung VIII, Siedlung in the Reichsernaehrungsministerium. Able specialist, but a Nazi fanatic through and through. Hiege boasted that he had had defeatists arrested by the Gestapo. This included an officer (son of his janitor) from Berlin who had expressed doubts as to Hitler's military genius (Fall 1939).

Hiege left at Passau hospital in April 1945 for a hospital in or near Innsbruck.

PARTICULARS OF CRIME OR REASON FOR WHICH WANTED

Include names and addresses of witnesses and other sources of information. Where crime is committed against members of Armed Forces, give victim's unit, full name, and service number. Attach separate sheets if necessary. If wanted for crimes committed in more than one locality, give particulars of each crime separately. Include details of rank, unit, etc. of wanted person, if it differs from that shown in columns 15 to 19.

Civil occupation: (cont'd) Dr. Hupfauer was also Chief of the Central Bureau in the Armament Industry from the end of 1944.

Before the war, Dr. Hupfauer was Head of the "Social Self-Responsibility" Department in the Central office of the German Labour Front (Deutsche Arbeitsfront-DAF). His official title was "Oberdienstleiter" and he was a Political Leader in the Supreme Office of the DAF.

The German Labour Front was an organization with organizational, financial, and personal independence. It was annexed to the NSDAF. The tasks of the Political Leadership were up to the Party itself. The DAF was an organization including about 20,000,000 people. Reichsorganisationsleiter of the NSDAF and also Leiter (Leader) of the DAF was Reichsleiter Robert Ley (Defendant in Case I).

(to be continued)

PARTICULARS OF CRIME (CONTINUED)

In 1942, Dr. Hupfauer was responsible for collaboration of the German Labour Front between the Reichsministry of Economics and the Reichsministry of Armaments and War Production. He was liaison man of the German Labour Front to the Armament Ministry.

In July 1943, Dr. Hupfauer became Member of the Select Committee for the Ruhr ("Rueststab Speer") and Chief of the Group "Arbeitsordnung" (Order of Labour) in the Speer Ministry.

In October 1944, Dr. Hupfauer became Head of the Control Department in the Speer Ministry (Central Bureau, Reichsministry of Armaments and War Production).

Oberdienstleiter Dr. Hupfauer was also Stabsobmann (Staff Chairman) of the Hauptamt NSBO (Nationalsozialistische Betriebszellenorganisation), and Head of the Proficiency Drives of the DAF (Deutsche Arbeitsfront). He played apparently an important role in the Ministry of Armament and Production as well in the German Labour Front. He knows the limits of the responsibilities of Ley, Sauckel and Speer, as he has been Chief of the Office of Sociale Selbstverwaltung (Social Responsibility) in the DAF for many years. He had as Chief of the Centralamt since December 1944 insight into all important events of the Ministry.

Dr. Hupfauer was requested by the Defendant in case one Albert Speer because the definition of authority is of great importance in the investigation of the question, (see continuation sheet)

As State Secretary and second in command of the Reich Ministry of Justice (1944-45) Klemm shares responsibility for the many criminal activities of the Ministry of Justice. The crimes committed in the name of justice for which Klemm shares responsibility include, among others, the purposeful failure to prosecute murderers of allied airmen; turning over "asocial" prisoners to the SS for extermination, forced sterilization of countless persons; the continuation of the dread terror practice -- "Nacht und Nebel", etc. For these and further offenses we have been preparing to bring Klemm to an early trial.

administration of slave labor program, illegal treatment of prisoners of war, etc.

In addition, Lohse, as Reichskommissar fuer das Ostland, probably participated in War Crimes and Crimes against Humanity in occupied Eastern territories. Such acts would again include persecution of Jews, and administration of the slave labor program, as well as persecutions on political grounds, and plunder of public and or private property. Lohse should be prosecuted for his participation in these crimes.

It is probable that, upon investigation, it will be found that Lohse also participated in other crimes for which he should be tried.

"The whole function of all education is to create a Nazi." This statement by Dr. Bernhard D. Rust, as Reich Minister of Science, Education, and Culture for the People, recorded in Voelkischer Beobachter on February 13, 1928, depicts the culmination of German education under the guidance and leadership of Dr. Rust. Dedicated to the creation of a Nazi, the German educational system began to eliminate all elements of resistance by official decrees, authored by Dr. Rust. His personal "purge" of the teaching profession in Germany represents one of the earlier courses adopted to attain this end. The attack on Christian teaching and on churches, the persecution of the Jews, and the regimentation of youth must be attributed to

Dr. Rust -- he was the instrument selected by the NSDAP to enforce its policy in the field of education and science.

Rust advocated the restoration of the Wehrmacht and the war employment of the German youth. Over his signature appeared decrees excluding Jews and half-Jews from schools, denying Polish children the right to enter German public schools, and forcing them into village schools. Orphans under six years of age were to be raised in State orphan asylums outside the homeland and trained to stay in the Reich.

Rust was influential in devoting funds from occupation costs to the purchase of art treasures and rare books in the occupied areas. The greater majority of these purchases were made in the German-created black markets, and the results of such purchases were returned to the Reich to be added to the collections confiscated from the Jews within the Reich.

As Minister of Science, Rust became the instrumentality through which requests were made by Germany scientific institutes for the confiscation of scientific instruments in occupied areas. Medical research laboratories became centers of experiments upon concentration camp victims and groups elected for extermination. Quotations from German medical journals which can be obtained in any German Universal Library referring to the score of experiments on people described as normally healthy who met sudden death. During Rust's tenure of office the supply of persons for experiments in German medical laboratories was definitely increased. (12)

PARTICULARS OF CRIME OR REASON FOR WHICH WANTED

Include names and addresses of witnesses and other sources of information. Where crime is committed against members of Armed Forces, give victim's unit, full name, and service number. Attach separate sheets if necessary. If wanted for crimes committed in more than one locality, give particulars of each crime separately. Include details of rank, unit, etc. of wanted person, if it differs from that shown in columns 15 to 19.

Together with Stresemann and Kuhlenskamp, he founded in 1918 and the following years, the Deutsche Volkspartei which he represented as Municipal Councillor in Magdeburg and County Delegate (Landtagsabgeordneter) for the Province of Saxony until 1925.

He founded, organized, and led the Stahlhelm as a non-political organization of war veterans.

From 1933 to 1935, he helped the NSDAP to take over the Stahlhelm. On 30 January 1933 he was appointed Reichsarbeitsminister (Minister of Labor) and joined the Party on 29 April 1933.

PARTICULARS OF CRIME (CONTINUED)

In July 1933 he became SA Obergrouppenfuehrer, in the same year he became member of the Reichstag. In 1937 he received from Hitler the (Goldenes Parteiabzeichen (Golden Party Badge.)

Seldte was also Minister of Labor under the Doenitz Government.

Seldte promoted and assisted actively the accession to power of the Nazi conspirators and the consolidation of power. He used for it his official position, personal influence, and his intimate connection with Hitler; likewise, his knowledge of Nazi Propaganda and methods.

Seldte played an important part in the political events which brought Hitler and the NSDAP movement into power, and he bears the full responsibility for the final dissolution of the Stahlhelm and its fusion with the SA and NSDAP in 1934 and 1935, an event which strengthened the influence and power of these organizations immensely.

As Labor Minister, Seldte is undoubtedly responsible in a large part for herding slave labor into Germany and for the use of prisoners of war for purposes of armament and defence.

A preliminary survey of files and documents presently available indicate that Seldte may be responsible for war crimes and should be accused and tried on such charges.

- A-2 cases against enemy military and civilian personnel where evidence is sufficiently complete to charge them as having been concerned in the commission of war crimes, either by having encouraged them, condoned in them, or in any other way shown their responsibility for them.
- B cases not falling under A-1 or A-2, but where any named enemy individual or military or civilian enemy personnel in authority should be held for interrogation as material witnesses after the cessation of hostilities.

LOCATION OF PRISONER OF WAR AND CIVILIAN INTERNEE
ENCLOSURES IN GERMANY, AUSTRIA AND ITALY.

United Kingdom and United States Zones of Occupation.

The attached information which has been received from CROWCASS is in some respects out of date, owing to the closing down of camps and may be of limited use only to members of U.N.W.C.C., owing to the frequent transfers of Detainees between camps.

It is, however, appreciated that when National Authorities endeavour to trace a person published in a CROWCASS Detained List, they will be helped if they know in which Allied Zone the Detained was held at the time of rendition to CROWCASS of the Detention Report. This is perhaps particularly so when a National Authority is without Liaison Offices at H. Q. Allied Zones of Occupation. Possible alteration in the information supplied in Detained Lists, in order to show the Zone in which a Detainee is held, is under consideration. Meanwhile, the attached is circulated.

A copy of the list was immediately forwarded to the Norwegian Attorney General. In a letter of 3rd June, the Attorney General states that the Norwegian authorities are not interested in any of the German officers mentioned in the above list.

13 JUN 1947

Dear Colonel Ledingham,

With reference to your letter dated 20th May 1947, enclosing a list of German Generals received from the Repatriation Desk, the following observations are in respect of Generals wanted by Belgium:

BRUNS Walter. A General of this name was wanted by my country in respect of the policy of deportation from Belgium (Charge 1591). An application for his extradition was made and approved by the British authorities, but it was found that he is not the right man. According to information supplied by him, he was never in Belgium, but is always being mistaken for his cousin of the same name. Asked about his cousin's activities during the war, he volunteered the information that he had been at the Oberfeldkommandantur in Westen under Rundstedt. It would therefore appear that the Walter Bruns whose name appears on this list is not wanted by Belgium, though further enquiries are being pursued into this matter.

JEHA v Léo. It is most uncertain whether this man is the von JEHA who commanded the Totenkopfverband stand at Oranienburg, (Charge 1804), but even if he is identical my National Office will not be applying for his extradition, since the trials of the concentration camp personnel are held in Germany.

ROETIG Otto. This man is charged by Belgium in connection with the Stalag Luft XII murder (Charge 796). It is understood that the trial in connection with that crime is in preparation in the British zone, in which case his extradition to Belgium will not be requested.

SIEMERT Kurt. If this man is identical with the officer shown as SEVERE who is charged by Belgium in connection with wanton devastation at Boesstraten (Charge 4143) my National Office would ask that he be transferred to Belgium for interrogation.

Colonel A. Ledingham,
D. C. C., U. C. C.,
United Nations War Crimes Commission.

/ERLAW

ERMANN Hans. It is possible that this man is identical with the Lt. General ERMANN who commanded a parachute battalion wanted by Belgium on Charge 3811, as well as charges 3075 and 3080. My National Office informs me that the ERMANN mentioned on those charges committed suicide in Germany. Unofficially I have learnt that there were two General ERMANNs who commanded parachute troops, the one appearing on the present list and another who commanded the 7th Parachute Division, whose christian name is given as Wolfgang and Hans, who may be detained at Munsterlager. If it could be shown that the General at present in England did command a parachute division in Belgium in September 1944, my National Office would no doubt be interested in obtaining his extradition.

DRAPELTON Walter v has been charged by Belgium in connection with the destruction of the University of Louvain (Charge 2991) but my National Office does not possess sufficient information to press this charge.

Yours sincerely,

Nidesmeier

Reference the dossier concerning German Generals, do you not think that it would be necessary to acquaint Mr. Lehnert with the contents of Monsieur Maillard's letter?

It would appear that Monsieur Maillard's letter does not require a reply immediately, but only when "des décisions auront été prises au sujet de ces différentes personnes"

As stated by Monsieur Maillard, THOMA may be

BEHREND, Hermann	(SS) Gen. Lt.

MANSTEIN, v. Erich	F.M.
ROETTIG, Otto	Gen.

General Taylor further informs me that German Generals Walter KUNTZE and Werner LORENZ are presently in the Nurnberg jail. An indictment has already been served on KUNTZE, and it is expected that LORENZ will be indicted within a month.

I should appreciate your notifying the Repatriation Desk, Foreign Office, that the above mentioned Generals will be wanted by the United States authorities at Nurnberg.

Dear

Thank you for your letter of 15th September and for transmitting the text of the cable received from General Taylor, the contents of which have been duly noted.

As it is stated that incriminating evidence concerning BRAUCHITSCH, MANSTEIN, RUNSTEDT and STRAUSS was transmitted to you, Sir Hartley Shawcross, and others, we assume that in the case of STRAUSS a charge for definite crimes is in the course of being filed with United Nations War Crimes Commission.

As we are required, however, to quote an authority on which a PW is being detained and categorised as a wanted war criminal, it would be very much appreciated if you would confirm that STRAUSS is wanted by the United States of America as defendant.

Further to my letter of the 11th. inst., referring to the list of German General Officers, I am sending you the following information received from the French and Belgian Representatives.

I Persons wanted by FRANCE:

1 - RICHTER, Wilhelm no. 560350

As far as this officer is concerned, the French authorities would be much obliged for finding out whether he is identical with the under-mentioned:

a) RICHTER - General, ex-Commander of the H.Q. Division at THUIR, guilty of having on the 1st August, 1944, at VELMANYE (Pyrénées-Orientales), given orders, to those under him, for murders, torture, deportation and wanton destruction in said commune. A warrant for the arrest of RICHTER was issued by the Court of TOULOUSE on February 28th, 1946.

b) RICHTER - General, who is accused of having ordered the pillage and destruction of textile factories in LEPANGES (Vosges) on 27th September, 1944. (case No. 1626/Pr/G/695)

c) von RICHTER - General, guilty of having, while in command at St-PRIVAS at Vars (Gard), given orders, to those under him, to pillage.

2 - THOMA

The French War Crimes Service wants S.S. General von THOMAS, predecessor to OBERG and head of the SS. services in France and Belgium up to 1942.

- 2 -

3 - ROETIG, Otto

General Officer, Inspector of Prisoners of War in Germany, implicated in the murder of 50 officers in the prison at GORLITZ, March, 1944.

4 - Colonel MULLER

Wanted for pillage committed at Boissy-la-Rivière (Seine et Oise). His dossier is being compiled.

5 - MUELLER, Hans - A 451663 - detained in camp 11

A Colonel MULLER, who belonged to the SS HOHENSTAUFFEN Division, is accused of having ordered people to be hanged in NIMES (Gard) on 2nd March, 1944.

6 - WOLFF Kurt - B 33417
detained in camp 11

WOLFF K-Friedrich - B 33420
detained in camp 11

The French National Office is looking for an Infantry Colonel called WOLF, accused of murder and other crimes committed between 14th and 17th August, 1944 in MIGNE (Vienne).

7 - von FELBERT Paul B 18886 - Camp 11

The French authorities are looking for a von FELBERT, ex-General Commanding the town of Besançon (Doubs). He is accused of murder and other crimes committed in July 1944 in Besançon.

8 - von HIPPEL Walter A 938954 - Camp 11

The French authorities are looking for a Lt. Colonel HIPPEL who belonged to 235th Infantry Regiment. He is accused of murder and other crimes committed in BREIL and the surroundings of AUTION (Alpes Maritimes) in April, 1945.

- 3 -

9 - WULF Rudolf - 560329 - Camp 11

The French authorities are looking for a Colonel WULF accused of being responsible for the pillage of the Beley factory in ETUPES (Doubs).

10 - JAHN Kurt - B 816212 - Camp 11

The French authorities are looking for an ex-Feldkommandant JAHN who was stationed in DIJON. He is accused of the execution of 5 students on 5th March, 1944.

II Persons wanted by BELGIUM

1 - BRUNS, Walter

A general of this name was wanted by Belgium in respect of the policy of deportation from Belgium (Charge 1591). An application for his extradition was made and approved by the British authorities, but it was found that he is not the right man. According to information supplied by him, he was never in Belgium, but is always being mistaken for his cousin's activities during the war. He volunteered the information that he had been at the Oberfeldkommandantur in Westen under Rundstedt. It would therefore appear that the Walter BRUNS whose name appears on this list is not wanted by Belgium, though further enquiries are being pursued into this matter.

2 - JENA v Léo

It is most uncertain whether this man is the von JENA who commanded the Totenkopfverband Stand at Oranienburg, (Charge 1894), but even if he is identical the Belgian National Office will not be applying for his extradition, since the trials of the concentration camp personnel are held in Germany.

3 - ROETTIG, Otto

This man is charged by Belgium in connection with the Stalag Luft III murder (Charge 796). It is understood that the trial in connection with that crime is in preparation in the British zone, in which case his extradition to Belgium will not be requested.

- 4 -

4 - SIEWERT, Kurt

If this man is identical with the officer shown as SIEVERS who is charged by Belgium in connection with wanton devastation at HOOGSTRATEN (Charge 4143) the Belgian National Office would ask that he be transferred to Belgium for interrogation.

5 - ERTMANN, Hans

It is possible that this man is identical with the Lt. General ERTMANN who commanded a parachute battalion wanted by Belgium on Charge 3811, as well as Charges 3075 and 3080. The Belgian Office informs me that the ERTMANN mentioned on those charges committed suicide in Germany. Unofficially it was learnt that there were two General ERTMANNs who commanded parachute troops, the one appearing on the present list and another who commanded the 7th Parachute Division, whose christian name is given as Wolfgang and Hans, who may be detained at MUNSTER-LAGER. If it could be shown that the General at present in England did command a parachute division in Belgium in September, 1944, the Belgian National Office would no doubt be interested in obtaining his extradition.

6 - BRAUCHITSCH, Walter v.

Has been charged by Belgium in connection with the destruction of the University of Louvain (Charge 2991) but the Belgian National Office does not possess sufficient information to press this charge.

With reference to your letter of 13th May, 1947, in which you enquire whether any of the German General Officers mentioned in the list attached thereto are wanted by any of the United Nations as war criminals, I enclose herewith five copies of a list of 36 names, together with the Commission's findings.

These findings are based on information as supplied by the National Offices concerned, in charges submitted to the Commission. It will be noted that in some cases the identity of persons listed by the Commission with those of the same name held in the camps is not sufficiently clear and will have to be finally established by the holding authority.

In addition, I have to draw your attention to the information I have received from the United States Commissioner, according to which the following named German officers mentioned in your list are wanted at Nurnberg as defendants and/or material witnesses:-

Original request from Foreign Office Repatriation Desk

20th May, 1947

The attached list has been received from the Repatriation Desk, Foreign Office, which requests information as to whether any of the German General Officers are wanted by other Allied Nations as war criminals.

The list is being checked by the Secretariat as to those persons who have already been charged by the National Offices and listed by the Commission. The findings will be transmitted in due course to the requesting authority.

It would, however, be appreciated if the list could also be checked by your national authorities, particularly with regard to persons against whom possible charges might be in preparation.

I am advised that if no objection is raised by the Commission within twenty days, the General Officers concerned will be categorised and released. I would, therefore, appreciate if I could receive your observations at your earliest convenience.

With reference to your letter of 2nd Oct., 1947 in which you enquire whether any of the PsW, mentioned in the enclosed lists, are wanted as War Criminals or Security Suspects, I enclose herewith a copy of a list of names together with the Commission's findings.

These findings are based on information as supplied by the National Offices concerned in charges submitted to the Commission. It will be noted that in some cases the identity of persons listed by the Commission with those of the same, or similar name, held in the camps is not sufficiently clear and will have to be finally established by the holding authority.

Dear Dr. Zivkovic,

I am much obliged to you for your letter of the 29th July last in which you were good enough to inform me that it has been decided for the time being to adjourn further examination of priority cases.

I trust that the Committee will deal with the Danish wishes if the issuing of the Priority Lists at a later stage is to be continued.

Yours sincerely,

Further to my letter of the 24th June last I beg to inform you that Fritz JODEIT has been listed on 'A', and I should, therefore, be grateful if he could furthermore be included in the Priority Lists.

As the Danish authorities are very anxious to have the persons mentioned in my above letter included in the Priority Lists, I should appreciate if you could advise me as to when the Danish wish will be dealt with.

Thanking you in anticipation,

Yours sincerely

Answer by reference to my previous letter

29th July, 1947.

Dear Commander Mouton,

With reference to your letter of 23rd July, 1947, enclosing a list of war criminals compiled by the Netherlands National Office for inclusion in the Priority Lists, I am instructed to draw your attention to the decision of Committee I taken with regard to this matter at its meeting of 25th July (Committee I Minutes No. 108, item III, para. two).

At that meeting you will see that it was decided to adjourn for the time being further examination of priority cases and the issuing of Priority Lists, until such time as information was received regarding the results of the First Priority List.

Should the Committee decide to proceed with the issuing of a new list, the cases submitted by your National Office will be brought before the Committee at the earliest opportunity.

Yours sincerely,

R. ZIVKOVIC
Acting Secretary to Committee I

Commander M.W. Mouton.

UNITED NATIONS WAR CRIMES COMMISSION.

COMMITTEE I.

Summary Minutes of the Meeting of Committee I held on 25th July,
1947 at 10.30 am.

In the Chair

Monsieur de Baer (Belgium)

There were also present:

Members of Committee I and their Deputies:

Sir Robert Craigie
Mr. Kintner

United Kingdom
United States of America

Members of the Commission, not Members of Committee I,
and Representatives of the National Offices:

Monsieur Heisbourg
Commander Mouton

Luxembourg
Netherlands

I. Minutes No. 107.

Minutes of the Meeting held on 17th July, 1947, were approved.

II. Proceedings in Individual Cases.

The Committee considered 78 cases against 386 persons submitted by the Netherlands, Luxembourg, Poland, the United States, and Belgium, and decided as in the Annex.

III. Priority List submitted by Denmark.

With regard to the issuing of a further Priority List, Monsieur de BAER drew attention to the fact that so far the Commission had received no information from the apprehending authorities of any practical results with regard to the First Priority List issued in March, 1947.

The Committee was of the opinion, therefore, that examination of further Priority Lists submitted by the National Offices should be discontinued for the time being until definite information was forthcoming to the effect that the Lists were serving a practical and useful purpose.

The Secretary was accordingly instructed to advise the Danish National Office of the Committee's present decision to adjourn examination of the Priority List for the time being.

IV. Closing of 61st List of War Criminals.

The Committee decided to issue a new Commission's List of War Criminals, (No. 61), to include cases accepted by the Committee between 20th June and 17th July, 1947, inclusive.

ANNEX TO MINUTES NO. 108 OF THE MEETING OF COMMITTEE I HELD ON
25th JULY, 1947.

2) LUXEMBOURG Cases.

NOTE The Committee took note that the Luxembourg National Office, probably unaware of the present ruling of Committee I, had not substantiated the charges below by extracts from statements of witnesses in support of the evidence referred to in its charges.

The National Office is therefore requested to substantiate the charges in all future cases by extracts from statements of witnesses in support of evidence referred to, and to submit extracts from such statements in support of cases examined at the present meeting. Details are required both as regards concrete cases and the personal responsibility of the accused for the commission of the alleged crimes. Particulars regarding actual criminal offences, times and places of their commission and the actual part taken by the accused in their perpetration are especially relevant.

With regard to the charges concerning denationalisation of Luxembourg nationals, the Committee requested further substantial evidence in order to establish that the accused were directly implicated in the policy of denationalisation, and in particular whether they were in a sufficiently influential official position as to be responsible in some measure for initiating and carrying out such a policy.

(LUXEMBOURG Cases continued)

- 5869 On 'S' for murder, pending submission of extracts from evidence in support.
With regard to the order issued by the accused to shoot Allied airmen prisoners-of-war in July, 1944, the Committee took note of the fact that such an order was very likely the direct result of instructions emanating from a conference at Hitler's Headquarters in June of the same year.
- 5870 On 'A' for murder and ill-treatment subject to an undertaking by the representative of the National Office to submit extracts from evidence in support of the crimes alleged.
- 5871 On 'A' for deportation

- 5882 Adjourned, in order that the case might be more fully substantiated.
- 5883 On 'S' for pillage, pending submission of extracts from evidence in support
- 5884 Adjourned, in order that the case might be more fully substantiated, particularly with regard to the personal responsibility of the accused for the arrest and ill-treatment of Luxembourg subjects.

With regard to the charge of pillage, the National Office was requested to supplement the charge with fuller details concerning each of the individuals accused in order to establish whether the valuables were, in fact, removed illegally, and whether the accused, in virtue of their position, could be held responsible for their removal or were instruments of a definite policy emanating from Berlin. As regards the other crimes allegedly committed by the accused (e.g. ill-treatment, wanton destruction of property, etc.) the Committee suggested that the National Office should present separate charges giving fuller details regarding the actual offences.

4) UNITED STATES Cases.

5917-5930

The Committee was of the opinion that although it might be presumed that the accused, as leading members of the firm of Krupps, were undoubtedly involved in the crimes alleged, the particulars given in the charges presented were not sufficiently substantiated, and the evidence submitted was in too general terms.

Mr. KINTNER said he would undertake to supplement the charges with a copy of the Indictment to be used in the impending trial of the accused, which would cover the points raised by the Committee. Subject to Mr. Kintner's undertaking, therefore, the Committee decided to list the accused in charges 5917-30 on 'A'.

Bolle, Fritz.

Fled from Denmark after the capitulation, presumably attached to the 591st or 592nd Regiment under General Bleeer. A Gestapo-man has stated that B. during his stay in the Vosges went on leave to Hohentwiel (Singen am Hohentwiel) near the Lake of Constance. He had on that occasion said that he wanted to see his wife who stayed with a Swedish family - a family of the nobility it is supposed. He is otherwise well known in film and sports circles and has himself been a boxer previously. This has, however, not yet been investigated in detail.

Dear Dr. Schram-Nielsen,

Further to the Secretary-General's letter of 17th March, 1947, concerning the submission by the National Offices of lists of war criminals for inclusion in the Priority Lists, I am instructed by Committee I to draw your attention to subsequent discussions on this subject in the meetings of Committee I on the 4th and 12th June, 1947 (Committee I Minutes No. 101 and 102).

In the first place, it should be noted that in accordance with the Commission's recommendation of 12th March, 1947, the Committee will only accept cases for inclusion in the Priority Lists where the individuals concerned are guilty of very heinous crimes such as would shock the conscience of humanity, and in regard to which there is sufficient direct evidence as to their personal responsibility for the crimes committed. In this connection it should be observed that the chief purpose of the Priority Lists is to draw special attention to persons of lesser standing who have been guilty of such crimes, rather than those who are more easily identifiable on account of their former high-ranking function or position.

With regard to the decision to accept 50 names of individuals from each National Office, the Committee regrets that it has since become necessary to modify its original proposal. The Commission has recently been informed by the apprehending authorities on the Continent that in order to obtain effective results the Priority Lists should be reduced to an absolute minimum. You will appreciate, therefore, that it is now necessary to request that your National Office should submit only a very limited number of names for inclusion in the Priority Lists, which would only comprise about 12 names at a time and would be issued in monthly instalments.

Yours sincerely,

J. LITAWSKI

Dear Mademoiselle Capionmont,

With reference to your letter of 20th May, 1947, enclosing a list of war criminals compiled by the French National Office for inclusion in the Priority Lists, I am instructed to draw your attention to the discussions and decisions of Committee I taken with regard to this matter at its meetings of 4th and 12th June, 1947 (Committee I Minutes No. 101 and 102).

The Committee desires to draw your attention to the fact that the individuals included in the list submitted by your National Office do not in many cases conform to the type of cases proposed by the Commission in its recommendation of 12th March, 1947. The Committee requests, therefore, that you would be kind enough to select and submit the names of individuals guilty only of the most heinous crimes such as would shock the conscience of humanity, and in regard to which there is sufficient direct evidence as to their personal responsibility for the crimes committed. In this connection the Committee further desires to point out that the chief purpose of the Priority Lists is to draw special attention to persons of lesser standing who have been guilty of such crimes, rather than those who are more easily identifiable on account of their former high-ranking function or position.

With regard to the decision to accept 50 names of individuals from each National Office, the Committee regrets that it has since become necessary to modify its original proposal. The Commission has recently been informed by the apprehending authorities on the Continent that in order to obtain effective results the Priority Lists should be reduced to an absolute minimum. You will appreciate, therefore, that it is now necessary to request that your National Office should submit only a very limited number of names for inclusion in the Priority Lists, which would only comprise about 12 names at a time and would be issued in monthly instalments.

I. Minutes No. 101

Minutes of the meeting held on 4th June, 1947, were approved.

II. PRIORITY LISTS - (continuation of discussion)

Referring to the discussion on this matter at the last meeting Sir Robert CRAIGIE informed the Committee that he had been in touch with the Office of the Judge Advocate General, and, in Colonel Barratt's absence, had contacted Colonel Halse. He had explained to Colonel Halse that the Commission was not pressing for any immediate results with regard to the apprehension of the persons listed in the Priority Lists; it merely expressed the hope that the competent authorities would keep the few names concerned before them, bearing in mind that the persons were guilty of particularly heinous crimes, and take whatever steps were possible to trace them.

Colonel Halse had replied that after making further enquiries he thought the Priority Lists might serve a useful purpose - and advised the Commission to continue with them. Colonel Halse had particularly urged, however, that the lists should be kept as short as possible - about twelve names - and should be concerned only with the most heinous crimes.

In view of Colonel Halse's advice, Sir Robert said that he thought the Committee would have to be even more meticulous than hitherto in its selection of priority cases.

Mr. KINTNER said he fully agreed that it was essential that the Committee should exercise great care in its selection of priority cases.

Dr. NEUMANN agreed that the lists should be kept as short as possible, but with regard to the priority lists submitted by the National Offices it was apparent that they seemed to be more interested in the apprehension of high-ranking criminals rather than those who had committed heinous crimes. In view of this, Dr. Neumann thought the question should be put before the Commission.

Dr. LITAWSKI observed that the Committee had already taken a decision on that question at the last meeting when it was agreed that the National Offices should be asked to make a further selection of cases of the type recommended by the Commission. Dr. Litawski added that the high-ranking persons afforded the least difficulty to the apprehending authorities as they were well-known and easily identifiable, and as far as persons already included in the published Lists were concerned, no purpose was achieved in placing their names again on the Priority Lists.

Sir Robert CRAIGIE agreed, adding that the purpose of the Priority Lists was to apprehend persons of lesser standing who were guilty of very serious atrocities, and, by means of these Lists, to draw special attention to such persons as distinct from the great majority of war criminals.

Mr. KINTNER said that the United States Government fully approved the principle of Priority Lists, but only on the basis of heinous crimes such as would shock the conscience of humanity. His Government were not interested in any intensive search for a person simply on account of his rank or position, or because of certain political implications attached to his case.

So far as Priority Lists submitted by the National Offices were concerned, Sir Robert CRAIGIE proposed that as they did not on the whole satisfy the requirements of the Committee, the Secretariat should inform the National Offices concerned of the Committee's decision taken in this respect at its last meeting, requesting them to reduce the lists to the necessary minimum. The Committee would limit itself in the first instance to future cases where the crimes were of such a heinous nature as to fully justify priority listing. The Lists would thus be kept quite short and the apprehending authorities would thereby be disposed to act upon them.

The Committee accepted Sir Robert Craigie's proposals.

III. Proceedings in Individual Cases

The Committee considered 162 cases against 405 persons submitted by the United Kingdom, China, Yugoslavia, the Netherlands, Poland, France, Denmark, Czechoslovakia and the United States, and decided as follows:-

- 5427 Although this case, as it stood, did not provide sufficient facts and evidence, especially in regard to the question whether the accused could be held unreservedly responsible for the conditions in the P.O.W. Camps in the last months of the war under general conditions of disruption which then prevailed in Germany, the Committee nevertheless decided to accept the case and list the accused on 'A' in view of the fact that he already appeared on the Commission List on a number of cases submitted to the Commission by the United Kingdom National Office, substantiating the accused's responsibility for various crimes committed against prisoners of war in Germany.
- 5428 On 'A' for illegal confiscation of property.
- 5429 This case was adjourned for further information necessary to substantiate the individual responsibility of all the accused for, and their direct connection with the crimes alleged. The National Office was also asked to furnish information on the status and activities of the Heimatsbund sufficient to establish to what extent this organisation, as a whole, and the leading officers, in particular, were involved in, and responsible for the policy of extermination and persecution of the Yugoslav population in that part of Yugoslav territory.

III. Closing of 59th List of War Criminals.

The Committee decided to issue a new Commission's List No. 59 which would include cases accepted by the Committee up to the 4th June 1947.

IV. Case of General MARINOV - letter from the Bulgarian Government.
(Doc. I/88).

The Committee took note of a letter received from the Bulgarian Government dated 13th May, 1947, and decided that it did not call for any reply or further action.

V. PRIORITY LISTS.

1). Communication from J.A.G.

The Committee took note of a letter from Colonel Barratt, Office of the J.A.G., dated 29th May, 1947, in reply to Sir Robert Craigie's enquiry with regard to the Commission's First Priority List.

Sir Robert, commenting on the last sentence of the letter, pointed out that Colonel Barratt gave no reason for his opinion that while the Priority Lists were excellent in principle, it was not felt that any useful purpose was likely to be served by the continuation of them so far as B.A.O.R. and B.T.A. were concerned. Before taking any decision on the matter therefore, Sir Robert said he would like to contact Colonel Barratt and ask him for an explanation, especially in view of his statement that the J.A.G. was still awaiting a reply from the various theatres.

The Committee decided to postpone further consideration of this matter until the next meeting.

2). Priority Cases submitted by National Offices.

Dr. LITAWSKI said that with regard to lists of priority cases so far received from the National Offices - it was apparent that the type of a large number of cases submitted did not conform with the Commission's recommendation. Whereas the Commission had agreed to base the selection of such cases on the heinous nature of the crime committed, the National Offices were inclined rather to base their selection on the position or function of the accused.

The Committee was of the opinion that since the Commission had taken a decision on the type of cases which were to qualify as priority cases, it was the responsibility of its members to see that their National Offices complied with the Commission's proposals. Accordingly, it was decided that the Secretary should forward the lists of cases to the representatives concerned pointing out that for the most part they did not conform to the type of cases proposed by the Commission in its recommendation of 12th March, 1947, and requesting the representatives to select and submit only those cases where the crimes were of a really heinous nature.

Dear *Ledingham*

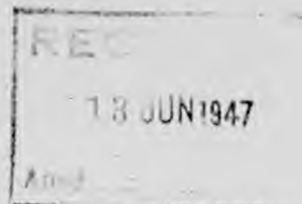

Thank you for your letter of 9th June enclosing copies of the Second Priority List.

I have forwarded these and the other copies which we are getting from you to War Crimes Group, North West Europe and South East Europe with the request that they should let me know as soon as possible whether any of the names are known to them.

Perhaps you should know that with effect from 1 June 1947 D.J.A.G. C.M.F. and B.T.A. ceased to have the control and preparation of cases for trial of war criminals in Italy and Austria. The responsibility now devolves on War Crimes Group, South East Europe, B.T.A.

Office of :

The Judge Advocate General,

Cockspur Street,
London, S.W.1.

29 May 1947

Dear Colonel :

Colonel Halse has passed on to me your letter of 27 May 1947 since I dealt with the matter originally in his absence. As mentioned in my reply dated 2 April 1947 to your letter of 28 March 1947, copies of the First Priority List of German War Criminals comprising the names of eleven Germans wanted by Allied Powers were passed on to War Crimes Group, N.W.E., and B.T.A. and C.M.F. for immediate action. Action has been taken upon them in the various theatres, but up to the present no results have been obtained in any of the eleven cases. I am making a further enquiry today from War Crimes Group, N.W.E., and B.T.A. as to the prospects of success in these cases. While these Priority Lists are excellent in principle it is not felt that any ~~other~~ useful purpose is likely to be served by the continuation of them so far as N.W.E. and B.T.A. are concerned.

Referring to my letter to you dated 2nd March
concerning first priority lists of persons living in
Germany, Sir Robert Gifford is anxious to know
whether those lists are serving any useful purpose and, if
not, has been asked to the first list of persons named
in the above referred to.

He would also like to know whether, in your opinion,
it would be of any use to be asked by our own people to
supply the first priority lists of persons living in
Germany.

P.S. Names have been
deduced by the French authorities
by UK or USA.

Dear Colonel Ledingham,

Further to your letter dated 17th March 1947 and asking the delegates to bring their Government's Priority Lists of wanted war criminals to the Commission I immediately sent a request to the French National Office.

The French list just reached me and I am forwarding it to you. It contains about 50 names.

Yours sincerely,

9th May, 1947.

Dear Mademoiselle Capionmont,

With reference to your letter of 6th May, 1947, addressed to the Secretary-General, I should like to inform you that the action envisaged in regard to persons listed in the First Priority List, and located, should be the same as in regard to all other persons listed by the Commission in ordinary Lists, namely, that they should be handed over for trial to countries by whom they are wanted (see Preface to the First Priority List).

With regard to the three prisoners mentioned in your letter, it would, however, appear necessary first to establish their identity with those of the same names which appear in the First Priority List. This could, of course, only be done by the French authorities in whose custody these persons now remain.

Yours sincerely,

J. LITAWSKI.
Legal Officer.

SUBJECT: Checking of identity of STRIPPEL

1. In charge 4339/Ne/G/328 referring to the above-mentioned, the latter's age is given as being 36 years, which corresponds with that of the birth (7.5.1911) of STRIPPEL, Friedrich, in French custody.
2. The above-mentioned has been listed only as STRIPPEL, so that I cannot check up on his Christian name.
3. Other particulars of STRIPPEL, listed on LIST 54:444 (strong broad figure; fair hair; blue eyes) is not given in the French screening report.
4. The data given in the screening report is not given in charge 4339/Ne/G/328.

SUBJECT: Checking of identity of GRUNEWALD, Adam

1. I have read charge 273/Ne/G/25, referring to the crimes alleged to have been committed by the above-mentioned, but in this charge there is no personal data of GRUNEWALD, Adam. I can therefore not identify the latter with the person of the same name in French custody.
2. I have sought further information from the Netherlands National Office. All I could obtain was some regarding rank and age. Even these two items vary and differ with those of the screening report submitted by the French.

3. The above-mentioned might be identical with the following.

Dear *Wade*

In reply to your letter of 29 March, 1947.

Copies of the first priority list of German war criminals have been passed to War Crimes Group, North West Europe, D.J.A.G., C.M.F., and OIC J.A.G's Branch, E.T.A.

I have reminded Lieutenant-colonel Draper that on his recent visit he discussed the possibility of using the Krips to locate these people.

Steps will be taken in the various theatres as far as is practicable to trace and arrest any of the wanted persons known to be there and I will advise you in due course of what we are able to do.

Yours

Simms

/ I enclose herewith three copies of the First Priority List of Germans
charged with war crimes, and venture to ask you to transmit them to your
competent authorities for action.

The Secretariat would appreciate if it could be informed at your

Dear Colonel Halse,

In accordance with the decision of Committee I taken on 20th March, 1947, I enclose herewith three copies of the First Priority List of Germans charged with war crimes, and venture to ask you to transmit them to your competent authorities for action.

In this connection I should like to mention that, during his recent visit to London, Colonel Draper, of the War Crimes Group, North West Europe, suggested that with regard to the apprehension of such persons there is no reason why the investigating authorities should not enlist the co-operation of the German police (KRIPD). This suggestion was greatly welcomed, and is regarded by the Commission as one which, if put into effect, may bring positive results.

The Secretariat would appreciate if it could be informed at your earliest convenience as to what steps will be taken by the United Kingdom authorities on the Continent in order to give effect to the Commission's recommendation of December 4th, 1946, set forth in the introduction to the List, and the results of locating the persons listed.

Dear Colonel Ledingham,

I thank you for your letter of 17th March concerning Priority Lists of war criminals.

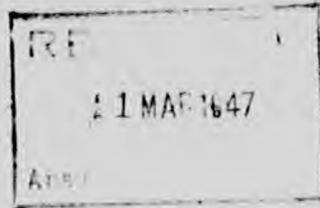

Since I wish to leave the selection of the 50 names to my National Office, I have asked them to-day to do so and as soon as I receive the list I will pass it on to you.

As regards the time limit for the submission of the charges, at the present moment I am not in a position to answer your question. I have also asked my National Office to state their position in this matter and to specify whether they will be able to present all their charges by September 1947. I will let you know their reply, which I am expecting early next month.

17th March, 1947.

In view of the decision taken at the meeting of the Commission on 12th March, 1947, in respect of Priority Lists of war criminals, Committee I would be grateful if, at your earliest convenience, you would either compile, or request your National Office to send in, a list of not more than 50 names of individuals selected from among those who have already been placed on the U.N.W.C.C. Lists. These persons should be those whose surrender your Government is most anxious to obtain and whose crimes were of such a heinous nature as to justify priority treatment. There should be adequate data about the identity of these persons to ensure reasonable chances of detection. The names should be shown in order of preference.

As has been explained in document Misc. No. 80, as soon as the answers have been received, Committee I will select from these lists a limited number of names. These will be forwarded to the Control Commission with a covering letter asking that special action be taken to trace these persons, and that the German Criminal Police be requested to co-operate in the search for these persons. The lists will also be sent to any other authorities who are in a position to undertake a search for the whereabouts of these accused.

As was explained in document Misc. No. 80, these Priority Lists will in no way affect the ordinary work of Committee I; the receiving of dossiers and the listing of war criminals will continue as in the past. The Committee

MINUTES

Minutes of Meeting held on 29th January (H.122) were approved and signed.

Amendments to Minutes of Meeting held on 5th March (H.123) had been received from Sir Robert Craigie, Dr. Schram-Nielsen, Mr. Burdekin, M. de Baer and Mr. Dao and would be incorporated in the final text.

GENERAL PURINOV'S CASE (DOCS. C.249, C.246 and A.36)

THE CHAIRMAN said that the text of the proposed letter had been carefully revised and considered by Committee I which proposed the wording contained in Doc. C.249.

SIR ROBERT CRAIGIE added that the two alterations suggested at the last meeting of the Commission had been made - apart from various verbal changes - to make it clear that the United Nations War Crimes Commission was not a Court of Law, to make clear the scope of the Commission's decision and to indicate that the Commission kept the door open, in case the Bulgarian Government had any further evidence to produce which had a definite and substantial bearing on the Commission's decision.

THE CHAIRMAN asked the Secretary-General to read a telegram which had been received from the Bulgarian Prime Minister - M. Dimitroff.

THE SECRETARY GENERAL read the following translation of the telegram:

"RIGHT HONOURABLE LORD WRIGHT OF DURLEY, CHAIRMAN, UNITED NATIONS WAR CRIMES COMMISSION LANSDOWNE HOUSE BERKELEY SQUARE LONDON.

BULGARIAN GOVERNMENT FOR THE REASONS GIVEN WHICH HAVE BEEN DULY VERIFIED CONSIDERS IT ABSOLUTELY UNJUSTIFIABLE THAT GENERAL MARINOFF SHOULD BE INSCRIBED ON THE LIST OF WAR CRIMINALS STOP ON THE CONTRARY HE TOOK PART AS COMMANDER IN CHIEF OF THE BULGARIAN ARMY IN THE WAR AGAINST HITLERITE GERMANY.

THE BULGARIAN GOVERNMENT LIKES TO THINK THAT THE COMMISSION WILL EXAMINE THE QUESTION OBJECTIVELY AND WILL NOT ALLOW A FLAGRANT INJUSTICE TO BE DONE TO THE BULGARIAN PEOPLE WHO REGARD GENERAL MARINOV AS A WORTHY AND HONOURABLE MAN OF ACTION.

GEORGUI DELITROFF PRESIDENT BULGARIAN COUNCIL OF MINISTERS."

THE CHAIRMAN invited the present members of Committee I to say whether they saw any reason in that telegram to depart from the course they had already decided to adopt.

M. de BAER did not think so.

SIR ROBERT CRAIGIE said that there was no reason, so far as he was concerned, to depart from the course taken. The point was, really, that the Commission was retaining General Marinov's name on the list with regret and they sympathised with the Bulgarian Government's position in the matter. They had considered all the charges which were brought before this Commission, and on the basis of those charges, Committee I had unanimously arrived at the decision that their earlier decision to place this man's name on the list must remain.

MR. KINTNER said that, as a member of Committee I, he wished to support what Sir Robert had said and to state that they believed, under the task assigned to Committee I, which was purely the examination of the evidence filed by member governments, and with the addition in this case of evidence presented by the Bulgarian authorities, that a prima facie case had been made and they therefore saw no reason why Committee I should alter its previously taken action.

THE CHAIRMAN said the result was that the Commission decided that this letter, in the form before it, should be sent out to the Bulgarian Government.

THE SECRETARY GENERAL enquired whether he had the Commission's authority to inform General Marinov's lawyer, who had come to see him last week, of the relevant extract from this letter.

SIR ROBERT CRAIGIE suggested that time should be given for the letter to reach the Bulgarian Government, through the United Kingdom Foreign Office before its substance was communicated to Marinov's lawyer.

M. de BAER asked whether they could send General Marinov's lawyer a copy of the whole letter once it had reached the Bulgarian Government.

THE CHAIRMAN said that this letter could not be given to General Marinov's personal lawyer. He thought the correct form was, as Sir Robert had said, that he should be given the relevant extract at a time when, in the natural course of events, the Bulgarian Government had received this letter through the agency of the Foreign Office.

SIR ROBERT CRAIGIE said that he would ask the Foreign Office to send it on as quickly as possible, by telegram or air mail, so that it would be presumed to reach the Bulgarian Government very soon, and they could ask to be informed of the date of its delivery to the Bulgarian Government.

EXTRADITION OF A WAR CRIMINAL FROM A NEUTRAL COUNTRY (DOC. A.35).

DR. SCHWELB, called upon by the Chairman, reported ^{on} the position on the lines of Doc. A.35. He added that after A.35 had been circulated, the Polish member of

the Commission had, in a letter, expressed his approval of the Czechoslovak suggestion. Perhaps he could add already at this stage Lord Simon - who was then Lord Chancellor of England - had given a detailed account of the steps undertaken by the great Allies during the war with a view to influencing the policy of neutral states, in a statement in the House of Lords, on 7th February, 1945. Dr. Schwelb gave a summary of Lord Simon's report.

THE CHAIRMAN thought it unfortunate that the Czechoslovak Government, who was primarily interested in this matter, should not have been represented.

M. de BAER recalled the draft conventions concerning the surrender of war criminals both between the Allies and in relation to neutral states which had been prepared by the Commission in 1944. His country was particularly interested in this question of the surrender of war criminals, and they were ^{also} very much interested in the surrender of quislings - the Belgian Quisling Degrelle was at present in Spain and obtaining harbour there. He saw the point of the Czechoslovak representative, but doubted that this Commission could usefully intervene in the specific case of one individual and was more in favour of a general recommendation.

DR. ZIVKOVIC said he felt very strongly on the lines of this paper and recalled the case of Bastianini. As in the Czechoslovak case, they had applied for a certificate and when it was delivered to them they had conveyed it to the Swiss Government through diplomatic channels. Then, a letter was sent by the Commission to all the member governments asking them, if they saw fit, to assist by making representations to the Swiss Government. He could confidentially say that when the British Government was approached by a Swiss Minister in London, who went to see a high representative of the Foreign Office, this high representative told him quite clearly that in the opinion of the British Government the man should be handed over to Yugoslavia, but even after this intervention nothing happened. If some action was contemplated by the Commission it would have to be very strong. He did not suggest what kind of action should be taken, but thought that they should do something to induce neutral governments, especially those who had become members of the United Nations lately, to hand over war criminals. He also referred to the Resolution of the General Assembly of the United Nations of February, 1946. There was absolutely no justification for refusing to hand over a war criminal whose guilt had been established by the United Nations War Crimes Commission. He felt that they should adopt some recommendation and probably undertake two sorts of action - one from the UNWCC itself, and the other through diplomatic channels.

COLONEL MUSZKAT spoke in favour of passing a resolution which might lend some assistance to the request of the Czechoslovak Government.

SIR ROBERT CRAIGIE thought they probably all agreed that it was unfortunate if persons accused of serious war crimes could take refuge in neutral countries. It rather defeated to that extent the purposes for which the Commission had been set up. At the same time they must remember that so far as the Federal Government of Switzerland was concerned this question of asylum had always been one to which special importance had been attached through the centuries and was therefore a very delicate one to handle. His recollection was that this question of asylum of war criminals was taken up about the time of the formation of this Commission by the U.K. Government and also the United States Government and there was an exchange of views in the course of which the Swiss Government stated that as a general principle it was not their intention to give asylum, or refuse to surrender, war criminals, but that they must judge each case on its merits. So far as the particular case which was before them was concerned he was inclined to think the matter would best be handled through diplomatic channels rather than by the Commission and he was going to suggest to their Czechoslovak colleague the desirability in the first instance of approaching the governments of the Powers which had been in touch with the Swiss Government on this question and asking them whether they had received any assurances and what in fact those Governments recommended; that would be the first step. He was sure that as far as the U.K. Government was concerned the Czechoslovak request would receive serious consideration if put forward in that way. There was the second point raised by M. de Baer - whether the Commission should pass a resolution in general terms applying to all extraditions from

neutral countries. He thought such a resolution justifiable, but was not quite so sure that it would have any effect.

DR. ZIVKOVIC said that in February, 1946, on the occasion of the first Assembly of the United Nations, a resolution was passed by the Assembly and the last part of the resolution contained an appeal to the neutral governments to surrender war criminals; he thought that in view of the difficulties still existing in neutral countries, they might also adopt a resolution with reference to the resolution passed in 1946 by the Assembly of the United Nations, with a sort of resolution to enforce the principles laid down by the United Nations on the occasion of their first meeting in London.

COMMANDEER MOUTON thought that passing the resolution by the Commission would not have much success. He agreed with what Sir Robert Craigie said about diplomatic channels and asked whether a letter could be written to the United Nations.

COLONEL MUSZKAT pointed out that the Czech Foreign Office had already taken steps through diplomatic channels and the fact that they had been unsuccessful was the reason why they approached the Commission. It would be wrong for this Commission not to take a decision in this matter which was of very great importance.

SIR ROBERT CRAIGIE thought the only diplomatic step taken by the Czechoslovak Government had been direct with the Swiss Government. His suggestion was that they should now approach the United Kingdom and United States Governments which he believed had conducted discussions with the Swiss Government in this connection. This was a further step he was suggesting.

THE CHAIRMAN asked whether any trouble of this sort had arisen with regard to Sweden. Spain, they had heard, had not responded to the various requests nor had Argentina.

COLONEL SPRINGER did not believe the United States authorities had had any difficulty in obtaining their war criminals for trial. He was uninstructed and was not as familiar with the background as many of the other members there. Sir Robert's suggestion of using diplomatic channels would possibly be more appropriate and effective than Commission action in this case.

THE CHAIRMAN thought it was undoubtedly difficult to come to any decision as to what was best to be done and it was still more uncertain what would be likely to happen if the Commission took upon itself to make representations on its own responsibility to the various neutral governments. He confessed he was sceptical of the results likely from anything the Commission might do. He thought that something might be achieved by diplomatic procedure and it might be possible to discover what exactly had been done diplomatically in the past. The upshot would seem to be to adjourn this discussion until a fortnight's time in the hope that members of the Commission would do their best to obtain all the information which their governments might have on this question and also to inform the Commission how far their governments were prepared to communicate that information to the Commission and to give the Commission any authority to inform anyone outside of its walls what was the exact position on these questions. It seemed to him, and was confirmed by his experience in the past, that the Commission per se - unassisted by diplomatic channels was not likely to achieve anything on this very difficult question.

SIR ROBERT CRAIGIE and M. DE BAER entirely agreed with the Chairman's suggestion to adjourn the discussion for a fortnight.

MR. DAO entirely agreed with the suggestion and said that China would see what they could do to help.

MR. DUFFEY felt there was much to be said for the proposition put forward by Sir Robert Craigie, that the matter might be advanced somewhat by representations being made through diplomatic channels by the powers who had already dealt with the matter. He asked whether a resolution in general terms expressing sympathy with the Czechoslovak Government could not be passed.

THE CHAIRMAN was not in favour of the passing of any resolution but could see no harm in the Commission authorizing the Secretary-General to write a letter to the Czech representative regretting his indisposition and very briefly stating the purport of this discussion.

MR. BURDEKIN said this would entirely achieve the object he had in mind.

The discussion was adjourned for a fortnight.

RESOLUTION ADOPTED BY SUB-COMMISSION, NANKING, on 4th March, 1947 (Doc. C.251)

THE CHAIRMAN said that the Commission was asked to approve the resolution adopted by the Sub-Commission circulated as Doc. C.251.

MR. BURDEKIN referred to the minutes of the Far Eastern and Pacific Sub-Commission (S.M. 33) where very big numbers of complaints still under investigation were mentioned and asked how this could be reconciled with a statement in the proposed resolution that the sub-Commission considers it has completed its task.

M. DE BAER^{also} asked for more information to reconcile the two statements.

MR. DAO said he was not in a position to give an explanation.

SIR ROBERT CRAIGIE referred to the previous letter of 20th January, 1947, from Mr. Dao to the Secretary General, where reference was made to the decreasing number of cases being submitted to the sub-Commission.

THE CHAIRMAN said that probably the Australian and American Governments were not submitting cases to the Sub-Commission.

MR. BRIDGLAND agreed as far as Australia was concerned.

The Resolution Doc. C.251 was unanimously adopted and it was agreed that the Sub-Commission at Nanking should be wound up as at the 31st March 1947.

SUBMISSION OF CASES BY ETHIOPIA (DOCS. III/50, I/76, I/81, Committee I Minutes No. 89)

THE CHAIRMAN introduced the discussion by referring to the circulated papers and minutes.

M. DE BAER said he was of the opinion that the Commission should not take up the matter of crimes committed in 1935 in Ethiopia by the Italians. There might not only be reasons of policy against this, but in his opinion, as Ethiopia was not a member of the Commission, and as long as they were not, he thought it would be out of order if the Commission should take up this question. If and when Ethiopia became a member the question might be re-considered.

THE CHAIRMAN mentioned that the Commission had written replies from Canada, Australia, Luxembourg and Poland, while Dr. Schram-Nielsen was hoping to get instructions in the near future.

DR. SCHRAM NIELSEN said that he had instructions to the effect that the Danish Government did not feel itself so interested in this matter that it would like to take any special line, but it had merely instructed him to follow what could be called the general opinion of the Commission, so he took it that he should abstain from voting.

COMMANDER MOUTON had instructions from his Government to say that it was not in favour of the Commission taking this task on its shoulders.

COLONEL SPRINGER thought the United States Government felt that it was not intended that the Commission should have jurisdiction over the matter of war crimes which may have been committed in the Italo-Ethiopian war and therefore should not assume jurisdiction over these war crimes.

MR. HORNE referred to a letter he had written to Lord Wright stating that the Canadian Government would be prepared to support a decision giving the Commission jurisdiction over war crimes committed in connection with the Italian invasion of Ethiopia in 1935-36, and where also reference had been made to the accepted interpretation of Article 107 of the Charter of the United Nations and to Article 93 of the International Civil Aviation Convention. This letter was however merely a general indication of his Government's readiness to support any decision that the Commission was prepared to take in favour of assuming jurisdiction, if it saw fit to do so, and he thought he should stress that last condition, because it seemed to him that their opinion was formed with reference to certain articles of the Italian peace treaties, and certain articles of the Civil Aviation Conference of 1944, which would lend support to the view that they could go back to the time when these atrocities were committed. He thought he could say for his Government that they would not take a stand against a decision of the Commission not to take jurisdiction, because they did lean to the view that it was a matter of policy, and if it was decided by the Commission that policy was against jurisdiction then they would follow suit.

He would be very glad if the Commission could make its views known as to whether or not it considered fit to do so, and was capable and wished to assume new burdens, because his Government was not aware of the attitude of the Commission.

MR. BRIDGLAND stated that the Australian view was that the Commission should consider cases of war crimes which had been committed in Ethiopia.

COLONEL MUSZKAT referred to his letter dated 3rd March, 1947 where he had adduced the following reasons in support of the proposition that the Commission should assume jurisdiction and list the perpetrators of crimes committed during the Italo-Ethiopian war. He referred -

1. to the Chinese reservation in the inaugural meeting of the Commission on 20th October, 1943;
2. the Commission's decision of 30th January, 1946, where the Commission has expressly assumed jurisdiction over crimes against humanity;
3. to the Control Council Law No. 10, which indicated the general attitude of the Allied Powers;
4. to the use of the term "European Axis" in the London Agreement of 8th August 1945;
5. to the fact that the theory that the whole war by the Axis was one war has been adopted by the four Great Powers;
6. to the point that it was impossible/not to consider the fact that the Ethiopian Government has never recognised the annexation of the country by Italy and to the reference thereto in the British-Ethiopian Agreement of 31st January 1942;
7. to Article 38 in connection with Articles 43 and 45 of the Italian Peace Treaty.

He further added that refusal to accept Ethiopian charges might be understood as discrimination against one of the Allied nations which had adhered to the London Agreement, and that it would be wrong to create a situation in which all the Allied nations, except Ethiopia, when submitting to the Italian Government requests for extradition should have behind them,

COLONEL SPRINGER thought the United States Government felt that it was not intended that the Commission should have jurisdiction over the matter of war crimes which may have been committed in the Italo-Ethiopian war and therefore should not assume jurisdiction over these war crimes.

MR. HORNE referred to a letter he had written to Lord Wright stating that the Canadian Government would be prepared to support a decision giving the Commission jurisdiction over war crimes committed in connection with the Italian invasion of Ethiopia in 1935-36, and where also reference had been made to the accepted interpretation of Article 107 of the Charter of the United Nations and to Article 93 of the International Civil Aviation Convention. He would be very glad if the Commission could make its views known as to whether or not it considered fit to do so, and was capable and wished to assume new burdens, because his Government was not aware of the attitude of the Commission.

MR. BRIDGLAND stated that the Australian view was that the Commission should consider cases of war crimes which had been committed in Ethiopia.

COLONEL MUSZKAT referred to his letter dated 3rd March, 1947 where he had adduced the following reasons in support of the proposition that the Commission should assume jurisdiction and list the perpetrators of crimes committed during the Italo-Ethiopian war. He referred -

1. to the Chinese reservation in the inaugural meeting of the Commission on 20th October, 1943;

7. to Article 38 in connection with Articles 43 and 45 of the Italian Peace Treaty.

He further added that refusal to accept Ethiopian charges might be understood as discrimination against one of the Allied nations which had adhered to the London Agreement, and that it would be wrong to create a situation in which all the Allied nations, except Ethiopia, when submitting to the Italian Government requests for extradition should have behind them,

not only Article 45 of the Peace Treaty, but also the support of the Commission.

M. DIMITSAS stated that his Government were against taking action on crimes committed before 1939.

MR. AARS RYNNING had been instructed by his Government to vote for any decision he might deem fit, after having heard the discussion of the Commission and he personally would support the view put forward by Sir Robert Craigie that the Commission should not deal with this matter.

MR. BURDEKIN stated that he had asked for instructions from his Government but regretted that he had not received any up to the present time, so would have to abstain from voting.

DR. ZIVKOVIC had already had the opportunity of expressing his views on this question when it was discussed in the Commission some months ago and he always considered that any war waged by the Axis as a whole, or by its individual members, was fully within the competence of this Commission, if the victim government involved expressed such a wish. In the Chinese case, cases were being examined as far back as 1931. In connection with the resolution which was adopted by the Commission in July last year, he was unfortunately away, because if he had been here he would have drawn the attention of the Commission to the fact that the first paragraph of the resolution was inconsistent with the facts.

DR. ZIVKOVIC read from the resolution the part stating that Committee I and the UNWCC had only, up to now, considered cases arising out of the present war. The understanding was, he assumed, that the "present war" was the war which broke out in 1939. This was not correct, because of the Chinese example. He would not consider therefore the Ethiopian war as an isolated case. It was within the general plan of conspiracy by the Axis Powers and if the victim government thought that crimes were perpetrated - and they all knew horrible atrocities had been committed - if Ethiopia applied to the Commission - he did not see what could be the grounds, either legal or judicial, for refusing such a request. He was waiting for his instructions, and he hoped to be able to communicate the official view of his Government in the near future.

M. DE BAER said that as his Government had expressed no opinion on the matter he could not vote.

SIR ROBERT CRAIGIE said that he had expressed his view that, in actual fact, quite apart from the legal question involved - which was certainly not very clear - when this Commission was set up, the intention certainly was that it should deal primarily with cases arising out of the second world war. It was true that in the Far East it had gone back further, but there was a definite continuity of events between the war in China in 1937 and the war in Europe in 1939. He ventured to suggest that the matter was one they could regard primarily from a practical point of view. They did not know when these cases would be brought forward, it might not be for some time and they were moving towards the end of their activities. The opinion of the U.K. Government was that it would perhaps be undesirable that the Commission should, at this stage, assume this new responsibility. They knew that this would not mean that the Ethiopian Government would obtain no redress for their grievances. Under the Treaty they should apply direct to the Italian Government and in case of disagreement the matter would go before the four Ambassadors. What the Ambassadors might do he did not know. They might wish the Commission's assistance at the time to cope with the matter, but perhaps they could leave that until it happened. In the meantime, he did not think they were denying to Ethiopia any redress for its grievances against Italian criminals, if this Commission declared its inability to undertake the responsibility for considering Italian war crimes.

THE CHAIRMAN remarked that it would be taken therefore that the view of the U.K. Government was not in favour of the Commission assuming jurisdiction.

SIR ROBERT CRAIGIE said that was correct.

MR. DAO said that he had received instructions that the Chinese Government would not oppose Ethiopia's request, should the Commission take up the question, and he thought he should abstain from voting.

M. MAILLARD said that his Government was not in favour of the Commission considering these cases.

MR. HORNE said that perhaps he should repeat that Canada would be prepared to support a decision to assume jurisdiction, but did not say that the Commission should assume jurisdiction.

As a result of this discussion, it appeared that Australia, Poland and Yugoslavia were in favour of the Commission assuming jurisdiction in connection with the Ethiopian request, while Canada, Denmark, New Zealand, Belgium and China would abstain from voting, the remaining members being of the opinion that the Commission should not assume jurisdiction over crimes committed by the Italians in Ethiopia, in 1935-36.

as
THE CHAIRMAN decided that/there were so many abstentions, they would renew this discussion at their next meeting.

PROPOSALS FOR A PRIORITY LIST OF WAR CRIMINALS (DOC. MISC. 80)

M. DE BAER said that he was submitting to the members of the Commission the proposals contained in Doc. Misc. 80 and he explained in detail their purpose .

As was known the question had already been put before the Commission a few weeks ago and it was decided to make priority lists. In Committee I they already had a short priority list of about 9 cases. What he wanted to speak about today was not the future but the past and that was where he wanted the Commission's help. It was impossible for Committee I to review the cases of 22,000 people and decide which of these people were to go on the priority list. The request was that every member would ask his government to submit a list of really heinous cases, but no more than 50. Committee I could then prepare a priority list of War Criminals ~~when~~ they had chances of apprehending - cases of really heinous crimes. They would not put on the first priority lists men in respect of whom there was absolutely no chance of finding them in Germany - no indication of identity apart from the name of the accused and perhaps even his unit. There would have to be some indication as to regions where he might be found - where his family were etc. Before putting this proposal before the Commission he would like to say there should not be any misunderstanding, especially as regards the letter he had seen that day from their Polish colleague. There was no question of changing in any way the activities of Committee I - they would go on examining cases as they had done in the past, and in view of this change of policy, Committee I might put on its list collective cases in the way suggested by their Polish colleague. On the other hand their list of priorities would be extremely small - and would be sent to the Control Council, and then, if they had good results, they might send further lists.

SIR ROBERT CRAIGIE entirely agreed with what M. de Baer had said.

THE CHAIRMAN agreed. He thought they had all been most anxious to bring criminals to heel, though they had experienced almost incredible difficulties at first, and it was a matter for self-congratulation that they had done as well as they had. This did not mean that they could not do better and even now it was not too late to improve facilities for identification, localisation, apprehension and he thought that what M. de Baer had suggested was the most practical scheme. He was sure that other members would agree with him when he moved that this proposal should be adopted by the Commission.

SIR ROBERT CRAIGIE said that he would second this motion.

COLONEL SPRINGER said that they were quite in favour of the priority lists.

M. DE BAER pointed out that they did not want on the list people who were already in custody.

COLONEL SPRINGER said that it occurred to him that after the priority list was finally made up, they might decide that there was a more effective way than sending it to the Control Council.

THE CHAIRMAN declared that this was not intended to discourage such machinery. At this late stage, he thought every device and machinery should be brought into effect. He considered M. de Baer's proposal was extremely practical and would have very good results.

SIR ROBERT CRAIGIE stated that the suggestion did not limit the despatch of the priority lists to the Control Commission. It would go to all authorities in addition to the Control Commission.

M. DE BAER explained that they had the promise of the Control Commission that it would search for these people, if the number was small.

PUBLICATION OF WAR CRIMES ENACTMENTS (DOC. C.247)

DR. SCHWELB said that on the 6th November, 1946, this Commission adopted the scheme proposed by Committee III for the publication of war crimes enactments and the Secretariat was charged with the task of collecting them. The paper before the Commission was a report on what had been collected through the kind help of all member governments - particularly the United Kingdom Government, which placed at the Secretariat's disposal all material that would otherwise have been inaccessible, namely English translations of the legislation of the former Axis states. This paper was being laid before the Commission as a report of what had been collected, as an invitation to those members who had not submitted their material to do so and to agree to the general scheme of the contents of the publication.

THE CHAIRMAN said that he had been told that it was thought that these enactments which were collected and set out in the lists would be printed probably by the Stationery Office and that they would come to a volume.

DR. SCHWELB said this would be done when they had all the material from the various countries.

THE CHAIRMAN said they would leave this in Dr. Schwelb's hands. He thought this was an admirable effort. He thought they might all congratulate Dr. Schwelb on this paper. Referring to Volume I of the Law Reports, which had been distributed to the members, he did not think they ever could have produced the reports of which this was the first, if it had not been for the tremendous effort and ability of Dr. Schwelb, and he was sure they might record here the resolution of the Commission giving their cordial thanks to Dr. Schwelb for his work in inaugurating the series of law reports of war crimes trials and for producing the first number.

The resolution was unanimously approved.

The forthcoming history, these reports which would run into many numbers and the volume of enactments, would be a permanent record of the work of this Commission, and it would be a permanent record showing the law which was developed in the course of the life of the Commission, and to a large extent developed owing to the efforts and investigation and the support rendered by the Commission.

DELIBERATE BOMBARDMENT OF UNDEFENDED PLACES (REPORT BY COMMITTEE III DOC. C.250)

SIR ROBERT CRAIGIE stated that the above document was intended for the information of the Commission's Far Eastern Sub-Commission and it would be rather a race to see whether it would get to them before they went out of business.

M. DE BAER pointed out that they did not want on the list people who were already in custody.

COLONEL SPRINGER said that it occurred to him that after the priority list was finally made up, they might decide that there was a more effective way than sending it to the Control Council.

THE CHAIRMAN declared that this was not intended to discourage such machinery. At this late stage, he thought every device and machinery should be brought into effect. He considered M. de Baer's proposal was extremely practical and would have very good results.

SIR ROBERT CRAIGIE stated that the suggestion did not limit the despatch of the priority lists to the Control Commission. It would go to all authorities in addition to the Control Commission.

M. DE BAER explained that they had the promise of the Control Commission that it would search for these people, if the number was small.

PUBLICATION OF WAR CRIMES ENACTMENTS (DOC. C.247)

DR. SCHWELB said that on the 6th November, 1946, this Commission adopted the scheme proposed by Committee III for the publication of war crimes enactments and the Secretariat was charged with the task of collecting them. The paper before the Commission was a report on what had been collected through the kind help of all member governments - particularly the United Kingdom Government, which placed at the Secretariat's disposal all material that would otherwise have been inaccessible, namely English translations of the legislation of the former Axis states. This paper was being laid before the Commission as a report of what had been collected, as an invitation to those members who had not submitted their material to do so and to agree to the general scheme of the contents of the publication.

THE CHAIRMAN said that he had been told that it was thought that these enactments which were collected and set out in the lists would be printed probably by the Stationery Office and that they would come to a volume.

DR. SCHWELB said this would be done when they had all the material from the various countries.

THE CHAIRMAN said they would leave this in Dr. Schwelb's hands. He thought this was an admirable effort. He thought they might all congratulate Dr. Schwelb on this paper. Referring to Volume I of the Law Reports, which had been distributed to the members, he did not think they ever could have produced the reports of which this was the first, if it had not been for the tremendous effort and ability of Dr. Schwelb, and he was sure they might record here the resolution of the Commission giving their cordial thanks to Dr. Schwelb for his work in inaugurating the series of law reports of war crimes trials and for producing the first number.

The resolution was unanimously approved.

The forthcoming history, these reports which would run into many numbers and the volume of enactments, would be a permanent record of the work of this Commission, and it would be a permanent record showing the law which was developed in the course of the life of the Commission, and to a large extent developed owing to the efforts and investigation and the support rendered by the Commission.

DELIBERATE BOMBARDMENT OF UNDEFENDED PLACES (REPORT BY COMMITTEE III DOC. C.250)

SIR ROBERT CRAIGIE stated that the above document was intended for the information of the Commission's Far Eastern Sub-Commission and it would be rather a race to see whether it would get to them before they went out of business.

THE CHAIRMAN thought it had a value beyond that and should be discussed only after more time had been allowed for consideration.

SIR ROBERT CRAIGIE said that the paper was drafted for the Sub-Commission and they had in mind, particularly, Far Eastern crimes.

MR. DAO stated that if it was the wish of the Commission to adopt this paper he would be quite prepared to transmit it by cable to the Sub-Commission.

THE CHAIRMAN moved that the Report - Doc. C.250 - be adopted and that the Chinese representative be requested to transmit it at his earliest convenience to the Sub-Commission.

This was unanimously agreed.

REPORTS BY CHAIRMEN OF COMMITTEES.

M. DE BAER said that last week Committee I dealt with 70 cases, comprising 369 individuals.

UNITED NATIONS WAR CRIMES COMMISSION

Proposals for a Priority List of War Criminals

by the Chairman of Committee I.

For some time I have been perturbed by the almost impossible task which faces the appropriate authorities in Germany and elsewhere, in tracing and apprehending all the accused who are listed by this Commission. In Committee I we have been accepting, as accused, persons against whom there exists a prima facie case of a war crime, but in many cases the war crime in question was not necessarily of a very heinous nature, and this practice has made our lists somewhat bulky.

I am fully aware that Governments must be left completely free to bring all their cases before the Commission, since it is most important that the picture of Nazi crimes, which is built up by the Commission, should be as complete as possible. For these reasons I consider that the present practice should continue unrestricted.

But the result is that the present list of war criminals issued by the Commission are too voluminous for the occupying authorities to handle; while the lists serve their full purpose in respect of surrender, they are of little practical effect for purposes of apprehension.

I would, therefore, like to suggest that a review should be made of all the cases which have been considered by Committee I, with a view to compiling a short list of war criminals, who are accused of having committed crimes of a truly grave nature, about which there is adequate first-hand evidence, while the identity of the criminal is well substantiated. Without this last element the tracing authorities will not have much chance of finding them.

I have recently discussed this matter with Colonel Draper of the Control Commission, and I asked him if it would be possible to make use of the German Police for tracking down a number of criminals short-listed by this Commission. The Kripo - the German Criminal Police - are a very efficient organisation; they have a system of entering the names and particulars of the ordinary domestic criminals in a Kripo book, which is circularised from Kripo Headquarters to every branch office, not only in the British zone, but in all other zones of Germany. Every tiny police station in Germany receives a copy of the particulars and the Kripo keep a regular check on the local inns and hotels, as well as on the inhabitants.

I understand, however, that the Kripo are already over-worked and under-staffed, owing to the amount of domestic crime (black market, fascist movement etc) and also because of the lack of officers who are not tainted with Nazi-ism. It is certain that if this Commission were to ask the Control Commission for permission to use the Kripo in the search for the odd 20,000 persons listed as criminals by the United Nations War Crimes Commission, the Control Commission would be unwilling to over-burden that organisation with such a huge amount of additional work, lest the administration of ordinary criminal justice in Germany be seriously delayed. They would, however, probably agree to trace a small number of accused, whose apprehension was considered to be a matter of priority.

Some members may wonder whether, in these circumstances it would not be better to recast the work of Committee I. The reason why I feel that Committee I should continue its work as in the past is that it may well be that criminals who are not on the priority list may, by chance, fall into the hands of the authorities, and provisions must exist for such

persons to be surrendered and tried. Moreover, the lists of suspects and witnesses should not be discontinued.

While leaving the work of Committee I to continue as it has done to date, I would like to put forward the following suggestions for the consideration of the Commission (and in this connection, I might add that I am personally willing to undertake any extra work which this may require):-

1. That National Offices should be asked to review their cases and specify which ones they consider to be of a really heinous nature and justifying priority treatment.
2. These cases should then be re-considered by Committee I, bearing in mind that the identification should be sufficient to give a reasonable chance of detention, and a new priority list of war criminals, wanted by all the states represented on the Commission, should then be issued.
3. This Commission should then ask the Control Commission for permission to use the organisation of the Kripo in the search for these men.
4. Eventually, further priority lists could be issued.

von HEIMBURG

figure sur la liste UNWCC No. 60 (No. 251 "S").

Votre dossier No. L. 2300, transmis le 4 Juin, 1947, a été enregistré par UNWCC No. 5393/Fr/G/2075.

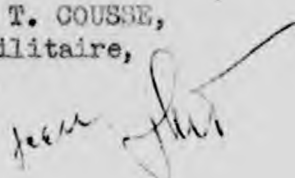

Selon votre dossier von HEIMBURG, Vice-Amiral, a appartenu au QG. de la Marine à BERLIN, et a été décoré "Pour le Mérite".

En sa qualité de membre du "Volksgerichtshof", von HEIMBURG est soupçonné d'avoir participé, Octobre et Novembre, 1943 à SARRREBRUCK, à des sentences rendues contre des civils Français qui avaient fait des aveux à l'instruction à la suite de tortures et sans que les droits de la défense soient respectés; et d'avoir fait une application extensive et erronée dans des textes allemands en vigueur à cette époque.

Agréez, Monsieur le Capitaine, je vous prie, l'expression de mes sentiments respectueux.

In reply to your letter of 29th December, 1947, enquiring about the fate of one Hauptmann HUPKE, I have no information as the said HUPKE has not been listed by UNWCC.

The name of Hauptmann HUPKE does not appear in charge U.K. - G/B 228 relating to OFLAG IV C, Colditz, where Mr. M. Riviere was.

The a/m charge concerns one FILZ, an Obergefreiter, who is alleged to have shot and wounded Lieutenant Sinclair.

The name of FILZ is on List 14; Serial Number 553.

Most faithfully,

(Dr. Litawski, Legal Officer)

Dear Sir Robert,

I should like to inform you that the under-mentioned war criminals have been surrendered by the Polish authorities to the disposal of the French General Tribunal for War Crimes in Rastatt. This has been done in response to a request for their extradition addressed by the French authorities to the Polish government, in order that the war criminals in question may be tried along with others in some trials now in course of preparation in the French Zone of Germany.

Subject: Repatriation of Prisoners of War from the Middle East who are
at present "frozen" as Suspect War Criminals.

With reference to your letter of 9th February, 1948, I should like to inform you that the nominal rolls have been, after the necessary screening and checking, distributed to the member Governments. In view of the fact that the last day for submission of charges to this Commission was due to expire on 21st February, the only course which I could suggest to the Governments was to submit the information required direct to the Foreign Office.

However, it is quite clear that in view of the fact that the representatives of the Government have to transmit the material to their main offices in the respective countries for further action it must take some weeks before any results can be achieved.

/ Enclosed are copies of individual sheets with the Commission's findings distributed to the respective Governments.

I have drawn the attention of the member Governments to the urgency of this matter.

Colonel.
Secretary-General.

Following my letter of 16th February, 1948,
I enclose herewith copy of a further list of P.O.W.
wanted by your Government as war criminals "frozen"
in the Middle East.

It is requested that your authorities take
the necessary action as soon as possible in order to
identify the wanted persons and make applications for
extradition.

I trust your authorities will regard the matter
as very urgent. If no extradition applications are sub-
mitted in a few weeks time the P.O.W. will be repatriated,
of course, without prejudice to their re-arrest in Germany.

In view of the fact that the last day for submission of charges to this Commission is 19th February, the only course which I can suggest is for [you] to submit the information required direct to the Foreign Office.
